3. (*a*) Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

(b) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government.

(c) All chests of certified opium sold for export to China must be shipped from Calcutta, on or before the 15th of December 1913, and if they are not so shipped, the option will be cancelled, and permits for their export to China will not be given either in 1913 or at any future time.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset prices referred to in condition (ii) at any time without such previous notice:—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,000 per chest of certified opium and of Rs. 1,200 per chest of uncertified opium and will be sold to the highest bidder above these prices except under the circumstances for which provision is made by clause xiii of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 100.

(vi) The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time n clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was

given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(*ix*) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*x*) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xi*) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

(*xiii*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum prices of Rs. 2,000 and Rs. 1,200 specified in the second of these conditions.

(*xiv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(*xv*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

(5) The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

(6) The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

(7) Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council,

J. DONALD,
Offg. Secretary.

No. 10.—Notification.—The following draft of amendments which in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in the revised Schedule of Tolls in force on the Calcutta Canals and Tolly's Nala and in the rules for the management of navigation thereon published in Notification No. 144, dated the 30th May 1893 (at page 493 of Part I of the *Calcutta Gazette* of the 31st *idem*), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 1st January 1913 and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft of amendments.

After item 13 *add* the following item :—

"14. During the period from the 1st December to 15th June boats laden with rice will be allowed to proceed to or from the river Biddiadhari through the Circular Canal and the Tolly's Nala *viâ* Kidderpore on payment of a rate of one rupee and twelve annas per hundred maunds of measured maundage for passage through these canals.

For purposes of reckoning demurrage charges under item 11 of this schedule, in the case of such boats during the said period, two extra days will be allowed over and above those provided for vessels plying on the Tolly's Nala.

Boats plying under this concession will not be allowed either to load or to unload along the Circular Canal or the river Hooghly. Infringement of this rule will render the boats liable to the ordinary tolls in force for the Circular Canal and Tolly's Nala."

Public Works Department, Bengal.

NOTICE.

FOR maintenance and working of the Barkal Tramway and rolling-stock from Peshkicherra to Chaltatali, 1¼ miles long, on the right bank of the river Karnafuli in the Chittagong Hill Tracts—

The Superintendent, Chittagong Hill Tracts, Public Works Department, invites tenders for the above work for a period of 12 months from 1st April 1913. A copy of specification for the said work is given in Schedule A.

A summary of conditions, maximum rates for passengers and luggage, &c., on which the contract will be drawn up can be seen from the subjoined copy of current agreement with contractor Babu Kailash Chandra Mitra, of Svarnagram, Dacca, given in Schedule B.

The undersigned is prepared to consider any subsidy if required for the maintenance of the service.

A list of rolling stock, plant, bridges, buildings and furniture, &c., to be maintained is given in Schedule C.

Each tender must be accompanied by earnest-money in currency notes, amounting to Rs. 25 (twenty-five only), which will be returned in the event of the tender not being accepted, and will be treated as security in the case of the successful tenderer.

Tenders must be forwarded in sealed cover addressed to the Superintendent, Chittagong Hill Tracts, Public Works Department, Rangamati, and must reach him on or before 3rd January 1913. The cover should be endorsed on the outside with the sender's name and address and should be superscribed in red ink "Tender for working and maintenance of the Tramway line, rolling-stock, &c., at Barkal from April 1913, to be opened on the 3rd January 1913." Unless so superscribed they are liable to be returned without consideration.

The Superintendent, Chittagong Hill Tracts, does not bind himself to accept the lowest tender or to assign any reason for non-acceptance.

O. MAWSON, Superintendent, Chittagong Hill Tracts.

Rangamati, the 28th November 1912.

SCHEDULE A.

SPECIFICATION.

FOR working the Barkal Tramway and maintenance of the line and the rolling-stock the contractor will employ a clerk and a staff of (say) six men at Barkal, varying in strength according to the traffic and stress of work on the line.

The contractor will be responsible for keeping waterways and approaches of bridges perfectly clear all through the year and taking care of all bridges and culverts on the Tramway and of Government buildings and for executing petty repairs thereto as occasion arises (save annual repairs to bridges and buildings) and for the safe custody of all furniture and stores at Barkal. All stores used up or rendered unserviceable by the contractor must be replaced at his cost.

Except where the line is fairly level and straight the trollymen must not get on the trolly especially when it is running down a slope.

Sleepers should be well packed with earth to give an even bearing surface and necessary camber to the rails. The line should be maintained in smooth uniform straight lines and curves, the inside of adjacent railheads being kept in one uniform line (to prevent jolting and breakage of wheels, axle, boxes, &c.), by properly placing the sleepers and keeping the rails thereto.

All worn out parts of trucks and trollies to be renewed and all damaged or broken parts to be replaced by the contractor. Axle boxes of trucks should always be kept well lubricated with oil, &c., and be maintained in a perfectly clean condition. All wrought-iron or steel work to be painted with red lead paint.

The whole length of the line, about 1¼ miles in length, to be kept clear of slips and caused by rain or otherwise and of all jungle growth all through the year for a width of about 60 feet. Similarly the approaches to the rest-houses and to the river in different places on the line should be properly maintained and kept clear of jungle, &c., to the usual width.

A clear width of ten feet for roadway with ordinary barrelled surface of road, side drains and cross drains for free drainage with small cut as outlets or water passage at short intervals from the outer drains to prevent the track being cut away by the drainage should be maintained by widening where necessary with about two feet wide side parapet of earth to prevent accidents and to stop derailed trucks.

After the rains are over, all irregularities or hollows in the roadway should first be levelled off, and when this is done, fresh earth cut from the hill side added so as to make up the road to the prescribed section, that is to give a camber or rise of one in twelve inch the centre of the roadway. The new earthwork must be consolidated by ramming or rolling early in the morning of the day following that on which it is put on the road, so as both to retain the moisture in the soil and to take the advantage of the dew before it evaporates.

N. N. DAS, District Engineer.

The 23rd December 1911.

SCHEDULE B.

Contract between the Superintendent, Chittagong Hill Tracts, on behalf of the Secretary of State for India in Council on one side and on the other Babu Kailash Chandra Mitra, son of late Ram Kinkar Mitra, of Svarnagram, thana Munshiganj, district Dacca, the executor of the estate of the late Rai Abhoya Charan Mitra Bahadur.

Know all men by these presents that I, Kailash Chandra Mitra, of Svarnagram, thana Munshigunj, district Dacca, executor of the estate of the late Rai Abhoya Charan Mitra Bahadur, residing at present at Chittagong, do hereby contract with the said Secretary of State for India in Council or his successor, and do hereby also agree and bind myself by the said contract to carry on the working and maintenance of the Tramway line about 11¼ miles in length (excluding bridges and buildings) and of the rolling-stock at Barkal together with the upkeep, repairs and sweeping of the line and the approach road at that place for an annual subsidy of Rs. 600 only to be paid to me by instalments subject to the conditions enumerated below :—

1. That the contract for the said work be for a period of twelve months from the 1st April 1912 to 31st March 1913 with the option of renewal on terms to be then settled.

2. That the undertaking and everything appertaining thereto shall be maintained and repaired efficiently to the satisfaction and according to the instructions and orders of the Superintendent and the District Engineer, Chittagong Hill Tracts, and that it be open to the inspection of the said officers at all times, and without the permission of the said Superintendent and District Engineer nothing shall be removed nor any alteration in the work made. In the event of any defects in the maintenance, repairs or proper working, the same can be mended by the said officers at my expense and the contract may also be summarily terminated, all losses being recovered from me.

3. That a list of all line, rolling stock, etc., constituting the undertaking be made and given to me, the same to be delivered to the said Superintendent or the District Engineer on termination of the lease in good order after making all proper allowances for fair wear and tear.

4. That the rates of carriage shall be as per details given below and to continue to be in force during its currency :—

(a) All stores, materials ordered or required by the Superintendent or the Engineer for transport in trucks over the line at Barkal to be allowed free of charge without objection.
(b) All other goods conveyed to be charged at the rate of 2 annas per maund.
(c) Goods weighing less than half maund to be charged as half maund at the rate of one anna.
(d) Goods weighing more than half a maund to be charged as one maund.
(e) Light goods weighing less than six maunds but occupying a whole truck shall be charged for at the rate of 12 annas per truck, *i.e.*, for six maunds, which is the carrying capacity of a truck.
(f) Goods weighing more than six maunds and carried in one truck to be charged at 2 annas per maund.
(g) That in the event of any dispute arising an appeal shall lie to the Superintendent, Chittagong Hill Tracts, whose decision shall be final.

The Darjeeling Electric License, 1912.

DRAFT LICENSE.

NOTICE is hereby given that the Commissioners of the Darjeeling Municipality have applied to the Government of Bengal, for the grant to them of a new license to supply electric energy in the town and neighbourhood of Darjeeling, i.e., Ghoom, Katapahar, Jalapahar and Lebong Cantonments.

2. Copies of the map showing the proposed area of supply are deposited for inspection during office hours at the office of the Commissioners at which place copies of the draft license may be obtained on payment of Re. 1 per copy.

3. Every local authority, Company, or person desirous of making any representation with reference to the application to the Local Government may do so by letter addressed to the Secretary to the Government of Bengal in the Public Works Department, within three months of the date of issue of the newspaper containing the first advertisement.

F. A. MOLLER, Vice-Chairman.

Municipal Office, Darjeeling, the 25th November 1912.

License for the supply of Electric energy granted by the Government of Bengal under the Indian Electricity Act, 1910 (Act IX of 1910), to the Municipal Commissioners of Darjeeling, in respect of the town and neighbourhood of Darjeeling, i.e., Ghoom, Katapahar, Jalapahar and Lebong Cantonments.

SHORT TITLE.

1. This license may be cited as "The Darjeeling Electric License, 1912."

INTERPRETATION.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder meanings are assigned shall have in this license the same respective meanings, provided that in this license :—

(1) the Act shall mean the said Indian Electricity Act, 1910;

(2) the expressions "the Licensees" shall mean and include the said Municipal Commissioners of Darjeeling and their permitted assigns, and

(3) the expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government, in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Public Works Department and by the Chairman of the Darjeeling Municipality.

AREA OF SUPPLY.

3. The area above referred to within which the supply of energy is authorized by this license (the area of supply under the Act) is the whole of the area bounded as follows :—

North—By a straight line from the junction of the Sidrapong Jhora and Little Rungeet River to the junction of Ging Jhora with the Rungnu River.

East—By the Rungnu River to the point where it is joined by the Senchal Jhora, thence a straight line to the south gate to the Water-Works Reservoir on Senchal.

Notice.

THE Suri Cattle and Produce Show will be held (for the 16th year) at Barabagan, Suri Railway station, on the Ondal-Sainthia Branch Railway, in the district of Birbhum, on the 1st February 1913 and the four following days. The grounds will be opened for the sale of articles from the 30th January 1913 for a week. Cattle, agricultural produce and indigenous manufactures will be received as exhibits on the 31st January and 1st and 2nd February 1913. Prizes in money, medals, certificates and selected seeds and implements, amounting to the value of Rs. 650, will be awarded for exhibits of this district as well as those of good quality for other districts. Intending exhibitors should prepare their exhibits and begin to make collections of indigenous articles from now, for which rewards will be amply given. Dealers and performers of music and sports may come and open their stalls in the exhibition ground two or three days beforehand. They should communicate with the Secretary about sites and other particulars at least a week before. The Railway Company is expected to make some concessions in the rates for luggages, etc., and the Exhibition Committee will also bear a portion of the expenses for bringing and taking back the exhibits from distant places.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

RESOLUTION ON THE ANNUAL REPORT OF THE DEPARTMENT OF AGRICULTURE, BENGAL, FOR THE YEAR ENDING THE 30TH JUNE 1912.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 26TH DECEMBER 1912.

RESOLUTION—No. 1474M.R.

READ—

The Report of the Department of Agriculture, Bengal, for the year ending the 30th June 1912.

THE report deals with the work done by the Agricultural Department during the year in the districts included in the Presidency of Bengal, comprising the Burdwan, Presidency, Dacca, Chittagong and Rajshahi Divisions.

2. *Charge.*—Prior to the 1st April 1912 the post of Director of Agriculture was held in the former province of Bengal by Mr. W. B. Heycock, and in the province of Eastern Bengal and Assam by Mr. S. G. Hart. From 1st April to 6th May 1912 Mr. Hart was in charge of the department in the

new Presidency of Bengal, and was then succeeded by Mr. J. R. Blackwood, who held charge till the close of the year.

3. *Staff*.—The administrative changes which came into effect on the 1st April involved far-reaching alterations in the constitution of the Agricultural Department. The expert staff attached to the Sabour College is now under the control of the Government of Bihar and Orissa, though the college remains open to students from Bengal and from Assam. The officers now serving under the Government of Bengal, include a Fibre Expert, an Agricultural Chemist, an Economic Botanist and an Arboricultural Expert, all of whom were previously employed under the late Government of Eastern Bengal and Assam. A scheme was submitted in June 1911 to the Government of India for the formation in Eastern Bengal and Assam of a service of District Agricultural Officers, who should act as a medium between the Agricultural Department and the people for the dissemination by practical demonstration of information relating to improved methods of cultivation. The Government of India desired that the experiment should be tried for two years in selected districts. A trained District Agricultural officer was accordingly appointed to Rangpur in November 1911 and another to Mymensingh in May 1912. In accordance with the scheme of work laid down for them, they have been engaged in making a survey of agricultural conditions and requirements in the districts to which they have been posted, and it is too early at present to pronounce an opinion on the practical results of their work.

4. *Agricultural stations*.—The province contains six agricultural stations at Dacca, Burirhat, Rangpur, Rajshahi, Chinsura and Burdwan. Progress has been made on the lines previously followed. At the Burirhat farm highly successful results have been obtained in connection with the production and flue-curing of cigar and cigarette tobacco.

5. *Agricultural Education*.—An attempt is being made to encourage nature study in elementary schools, and at the Dacca Training College a class has been established for the instruction of teachers of primary schools in nature study. In Jessore, gardens have been laid out in connection with about 300 primary schools. The success of these measures has not yet been proved, though some encouraging reports have been received. The Governor in Council is glad to see that the Director of Agriculture is alive to the necessity of making the training thoroughly practical.

6. *Research and experiments*.—Of the various experiments made during the year, the most important to this province are those connected with the cultivation of jute. Cross fertilisation experiments conducted by the Fibre Expert, Mr Finlow, in collaboration with the Economic Reporter to the Government of India, have shown that jute is normally self-fertilised, and consequently that improved varieties can be introduced even on a small scale without risk of being swamped by chance crossing with inferior varieties. Mr. Finlow's classification of different races has established the fact that there are one or two varieties of jute, which, while taller than most other races, are decidedly superior in the quality of their fibre. The problem is being followed up, and it is hoped that valuable results will eventually be obtained. The Agricultural Chemist, Mr. Meggitt, continued his interesting work in connection with the soil of the Dacca farm, and his crop analysis experiments, with the object of ascertaining how crop composition is affected by manuring. It is too early yet for definite conclusions to be drawn from these experiments. In connection with the work done in Botany, Entomology and Mycology the Governor in Council is glad to acknowledge the assistance rendered by the officers of the Pusa Institute.

7. *Sericulture*.—The Silk Committee, of which the Director of Agriculture is President, and the representatives of the principal silk firms in Bengal are members, continued to be in charge of the sericultural operations in this province. A substantial advance towards the supply of pure and healthy seed to the rearers was made in the appointment for a period of three years of a French expert in hybridisation. This gentleman, M. Lafont, began work in January, and has already raised a considerable quantity of hybridised seed which has been supplied free to a number of rearers. The result of the experiment is awaited with interest. The acknowledgments of Government are due to Messrs. Anderson, Wright & Co., who not only secured the

services of the expert from Lyons but are also making a substantial contribution towards the cost of his experiments.

The Silk Committee has evolved a scheme by which it is intended ultimately to afford a supply of pure seed for the whole province through the medium of central nurseries under efficient supervision. The establishment of such nurseries must of course be a gradual process, and their success must depend on whether they can supply pure seed at a price which is at once sufficient to cover expenses and within the means of the rearers. There are now 19 nurseries or rearing houses with mulberry plantations attached to each, but some of the smaller nurseries will probably be closed on the establishment of central nurseries.

8. *Fisheries.*—Mr. T. Southwell, who was appointed by the Secretary of State to fill the post of Deputy Director of Fisheries, joined his post in December 1911. The main work undertaken by the Fishery officers was that connected with carp, *hilsa* and *bheri* culture. Information as to the habits of these fresh-water species is as yet extremely scanty, and the energies of the department have been chiefly devoted to the work of inquiry and investigation, without which no data for experiments can be obtained. These investigations are not confined to the waters of Bengal, but extend also to those of Bihar. It has been recognized that, for the present at any rate, inquiries must be carried on jointly in the two provinces. The *hilsa*-hatchery at Monghyr and the carp-breeding stations at Cuttack and Bankipore all lie in the province of Bihar and Orissa. It has accordingly been arranged that, while the Fishery officers remain under the control of the Director of Agriculture, Bengal, the cost of experiments in which both Governments are interested, should be shared. For research work a laboratory was established at the Indian Museum where materials collected in both provinces have been the subject of examination and experiment. During the cold weather, Mr. Das and Mr. Mohsin, the two Superintendents of Fisheries, were employed on the survey of the districts of Murshidabad and Patna, respectively, with a view to obtaining a first-hand knowledge of the present condition of fisheries and fish-supply.

The work of investigation has been much hampered by want of a steam-launch, but it is hoped that this deficiency will be made good shortly.

9. *Agricultural Associations, Fairs and Shows.*—In connection with the Provincial Agricultural Association, whose head-quarters are in Calcutta, there are in the Burdwan and Presidency Divisions two divisional, ten district and five branch associations. In the Dacca, Chittagong and Rajshahi Divisions there are a number of associates, not organized into associations, but corresponding directly with the Agricultural Department regarding the operations which they undertake. The character of the work undertaken by the various associations in Western Bengal varies greatly. Most of the members of the Burdwan Divisional Association carried out definite demonstrations during the year, but it is reported that very few of the members of the Presidency Divisional Association did any practical work. Of the ten district associations only three are reported to have undertaken any demonstration work.

The Provincial Agricultural Association contained a number of members from Bihar and Orissa, but it has been decided that that province should form its own association, and the Bengal Association is being reorganized with a view to dealing with the work in the existing Presidency. A number of members from the Eastern districts have been added, and steps are being taken to secure some representatives of the jute industry, whose advice in regard to the practical measures to be taken for the improvement of jute cultivation will, it is hoped, be of the utmost value. In view of the experience gained in Western Bengal, the Governor in Council is disposed to proceed cautiously in the matter of the formation of additional divisional and district associations. In areas where there are a number of gentlemen keenly interested in the improvement of agriculture, they will probably do better work as an association than individually. But where the number of persons prepared to undertake practical work is small, no advantage is gained by forming associations composed mainly of people whose interest in the improvement of agriculture is slight and academic, and it will probably be more advantageous for the practical workers to deal direct with the Provincial Association and with the Agricultural Department.

Thirteen agricultural and cattle shows were held during the year in different parts of the province, to which grants-in-aid amounting to Rs. 2,850 were made. Some of these shows do not appear to have been very successful, and the Governor in Council would be glad if the Director would look into the question of their organization. In order that they may produce practical results, it is essential that the co-operation of persons really interested in agriculture should be enlisted.

10. *Publication of agricultural information.*—Besides the Quarterly Journal, the department published, as in previous years, a number of reports and notes and circulated leaflets in English and Bengali. At a meeting of the Provincial Agricultural Association held after the close of the year, it was agreed that the publication of a quarterly journal should be discontinued so far as Bengal is concerned, as the chief contributors have been the staff of the Sabour College. In its place, the year book (*Krishi Samachar*), published in Bengali by the Agricultural Department of Eastern Bengal and Assam, has been continued as the annual publication of the Bengal Agricultural Department.

11. (*a*) *Miscellaneous.—Arboriculture.*—The work of the Arboricultural Expert has hitherto been confined to Dacca, and his services will be required for the Civil Station for some years to come. It is therefore proposed to place his services under a Station Committee to be formed at Dacca, but it has been arranged that the Director of Agriculture should refer to him for aid and advice in matters connected with arboricultural work outside that city.

(*b*) *Improvement of the jute forecast.*—The question of improving the jute forecast has been the subject of careful consideration, and has been frequently and fully discussed with those interested in the trade. An experiment was made this year in obtaining detailed reports from *panchayats* as to the area under jute in each union. The results obtained are now being carefully tested, and it is hoped that as the system becomes better organized, it will lead to considerable improvement in the accuracy of the forecast.

(*c*) *Utilization of non-official agency.*—The Governor in Council is glad to observe that the Director of Agriculture is able to acknowledge the assistance received from several non-official gentlemen who have taken a special interest in agricultural work, and he cordially hopes that Mr. Blackwood's efforts to bring a larger number of zamindars and other private gentlemen resident in the mufassal into touch with the department will prove successful. The question whether the Agricultural Department should not work in closer touch with the Co-operative Credit movement is under the consideration of Government. In one instance at least, a Co-operative Society has been formed for the definite purpose of financing an agricultural improvement which was beyond the means of its members individually, and if such cases could be multiplied, the two departments, working in concert, should be able to make a substantial advance towards their common object of securing the improvement of the rural economy of the country.

12. The Governor in Council desires to acknowledge the good work done by the officers of the department during the year. The reconstitution of the provinces, involving a redistribution of the expert staff, has necessarily caused some dislocation of the work of the department, but the new Presidency of Bengal is fairly homogeneous from an agricultural point of view, and this circumstance should facilitate concentration of effort. The department should now set before itself a definite line of action both in experiment and in demonstration, and should pay earnest attention to the solution of the problem of the most efficient and speedy means of bringing the results of its labours to the knowledge of the cultivators.

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette*, and that a copy of it, with a copy of the report, be submitted to the Government of India.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Government of Bengal.

THE report under review deals with the forests contained in the Presidency of Bengal as it stands after the recent administrative changes, viz., those of the Jalpaiguri, Buxa, Chittagong, Chittagong Hill Tracts, Sundarbans, Darjeeling, Kurseong and Tista Forest Divisions. Mr. C. E. Muriel held charge of the Bengal Forest Circle, so far as the four latter Divisions are concerned, throughout the year, and in respect of the rest, from the 1st April 1912 to the close of the Forest year on the 30th June 1912. The Chittagong and Chittagong Hill Tracts Divisions were in charge of Mr. H. Carter, Conservator of Forests, Eastern Circle, and the Jalpaiguri and Buxa Divisions, in charge of Mr. A. V. Monro, Conservator of Forests, Western Circle, Eastern Bengal and Assam, up to the 31st March 1912. This report has been drawn up and submitted by Mr. Muriel.

2. *Changes in Area and in Administration.*—On the readjustment of the boundaries of the Province in April last, Bengal gave up 1,717 square miles of Reserved Forest and 1,987 square miles of Protected Forest to Bihar and Orissa, and received 2,141 square miles of Reserved Forest, 54 square miles of Protected Forest and 4,030 square miles of unclassed State Forest from Eastern Bengal and Assam. The present Bengal Circle contains 10,475 square miles of different classes of forest as compared with 7,952 square miles contained in the old Bengal Circle as it stood before the 1st April 1912.

The redistribution of the Forest staff as between Bengal and Bihar and Orissa has been completed, but as between Bengal and Assam various difficulties have arisen, and a reference has recently been made to the Government of India on the subject.

3. *Reservation and Demarcation.*—Proposals for the reservation of certain areas in the Jalpaiguri District have been under consideration, but the work has not yet been taken up owing to want of staff. It is observed that a considerable amount of demarcation work remains to be done in the Chittagong and Chittagong Hill Tracts Divisions, and the Governor in Council trusts that next year's report will be able to show that satisfactory progress has been made in this important matter. The report of the Committee, which was appointed in the previous year to investigate the question of the evils caused by disforestation in the District of Darjeeling and the remedies to be applied, was referred to landholders and other persons concerned for opinion. Their views have now been received, and the whole question is under the consideration of Government.

4. *Working Plans.*—During the year a revised working plan was sanctioned for the Sundarbans Forests, and came into effect from the 1st July 1912. A revised working plan for the Reserved Forests of the Darjeeling Division, including six square miles of Reserved Forests in Kurseong, has been sanctioned since the close of the year. The question of the disforestation of the Chakaria Sundarbans Reserve in the Chittagong Division, which was left over by the late Government of Eastern Bengal and Assam for the decision of this Government, will be taken up on the receipt of a report which has been called for from the Commissioner of Chittagong.

5. *Communications and Buildings.*—Thirty-five miles of Cart road were constructed at a cost of Rs. 7,305, 32 miles of bridle-paths at a cost of Rs. 3,143, and 37 miles of footpaths for inspection purposes at a cost of Rs. 1,741. The expenditure on new buildings amounted to Rs. 35,491. The most important work was the completion of the bungalow for the Divisional Forest Officer, Chittagong Hill Tracts, at Rangamati. The total expenditure on new works and on repairs was Rs. 47,736 and Rs. 27,985, respectively.

6. *Protection.*—There was a slight increase in the number of reported offences against the forest laws during the year, and the result of the cases disposed of was on the whole satisfactory. It appears, however, that the number of undetected and unreported cases is still very considerable. The most serious offence was that of counterfeiting a Government hammer and using it in a windfall *coupe* of *Sundri* in the Sundarbans to mark a number of trees for illicit sale. Though the maker of the hammer was not discovered, the purchasers who took advantage of the fraud were compelled to pay heavy compensation for the trees thus felled, and have been excluded from further timber sales. In Kurseong, illicit shooting is said to have been rife, and it is believed that similar offences are common in the Jalpaiguri, Buxa and Tista Divisions. In both the Chittagong Divisions, there is reason to believe that many offenders go undetected, and that offences are unreported owing to want of activity on the part of the protective staff. The Governor in Council is glad to see that the matter is engaging the Conservator's attention.

There was no change in the areas under fire protection during the year, which total 460,954 acres. The methods employed were successful, only 2,642 acres having been burnt during the year. It is satisfactory to find that the Nepal Durbar cleared their side of the frontier fire-line except for about three miles, while the Darjeeling side of this line was cleared to a width of 100 feet throughout its length.

The area open to grazing is 4,770 square miles, but of this 4,030 square miles consists of the unclassed Forests in the Chittagong Hill Tracts. The number of cattle impounded during the year was for various reasons larger than that of previous years. In Kurseong, considerable damage was caused by cattle in the hill forest, where young plants were destroyed and landslips started by cattle paths on the steep hillsides. In Buxa, in addition to the direct injury caused to seedlings by cattle eating the leading shoots, some undesirable shrubs and climbers are said to have been introduced by cattle. In Jalpaiguri and Buxa, it would appear that more effective steps might be taken to regulate the excessive grazing which is the cause of damage to the forests.

The Conservator of Forests has brought to the notice of Government that a very large quantity of dead *sâl*, amounting to over four million cubic feet, has been extracted from the Buxa Forests during the past seven years. The matter is still under investigation, and it is impossible at present to say whether the great mortality has been due to natural causes, or whether there has been some organised manufacture of dead *sâl* on the part of persons interested in obtaining dead *sâl* at low rates. Whatever the cause may be, the results are most serious and may necessitate a revision of the working plan. Meanwhile, extraction of dead *sâl* has been restricted to trees marked by Forest officers, and the royalty payable on dead *sâl* has been raised. An investigation is now being held, and the Governor in Council desires that a

full report on the whole subject, including the question of the remedial measures which can be adopted, may be submitted as early as possible.

No departmental khedda operations were carried out during the year, and the only operations conducted by a private individual in the Tista Forests were unsuccessful. Complaints of the damage caused by wild elephants have been received from some Divisions, and it is hoped that it will be possible to undertake more extended khedda operations next season.

7. *Financial results.*—The results of the year's working are very satisfactory. The total revenue rose to Rs. 14,49,441 from Rs. 13,50,914 in 1910-11, while the total expenditure was Rs. 6,69,595 as against Rs. 6,57,086 of the previous year. There was thus a net surplus of Rs. 7,79,846 or Rs. 86,000 in excess of the surplus of the previous year, and Rs. 1,40,000 above the average for the preceding five years. Of the expenditure, 49 per cent. was devoted to the extension, constitution, improvement and exploitation of forest property and 51 per cent. to administrative, executive and protective charges. There was a slight decrease in revenue in the Tista and Sundarbans Divisions, but all Divisions show a surplus. The decrease in the Sundarbans is due to the inroads of tigers, which greatly hampered fellings during the working season. Measures have been taken to encourage the killing of tigers by giving greater facilities for the payment of rewards to *shikaris*. The revenue of the Chittagong Hill Tracts Division has more than doubled since its creation in 1909, and there can be no doubt that both this Division and the Chittagong Collectorate Division, though they suffer from inaccessibility and difficulties of transport, possess great possibilities of future development.

8. The thanks of the Governor in Council are due to Mr. Muriel for his interesting report and for his careful and efficient administration of the Department in a year of great changes and unusual difficulties. His Excellency in Council notices with pleasure the commendatory remarks on the work of the officers of the Department contained in Chapter IV of the report.

ORDER—Ordered that this resolution be published in the Gazette, and that a copy of it, with a copy of the report, be submitted to the Government of India.

RESOLUTION.

Administration Report of the Commissioners for the Port of Calcutta for 1911-12.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for 1911-12.

Income and Expenditure.—The income of the Trust amounted to Rs. 1,35,71,893 against Rs. 1,28,26,171 in 1910-11, which was the highest previously earned. The earnings of all sections of the Trust show increases except the Dry Docks and the river-side transit sheds. The reduction in the wharfage rates and rents in connection with these docks and sheds affected the income of the year to the extent of about a lakh of rupees. The largest increase was at the Wet Docks, notwithstanding a deficiency in the exports of coal of 200,728 tons, the exports of other articles rising to a high figure.

The expenditure amounted to Rs. 1,33,20,425 against Rs. 1,28,23,770 in the previous year. There was a surplus of income over expenditure on the year's work of Rs. 2,51,468.

The charges on goods and shipping have been steadily reduced in recent years and the reductions made since the year 1902-03 represent a relief of Rs. 14,47,500 to the trade of the year under review. This amount, however, does not take into account a number of reductions which have been made in the charges on goods other than the landing and shipping charges, the effect of which is very considerable but is difficult to calculate. On the other hand, the river-dues on coal have been enhanced from time to time, the total charges on export coal now being 9½ annas per ton, as compared with 8 annas in 1904-05, an enhancement which, on the trade of year under review, represents an increase of about 2½ lakhs.

2. *Jetties.*—The tonnage of imports, excluding the receipts from the Moyapur Magazine, was 895,419 as against 851,383 in 1910-11, and 838,566 in 1909-10. The total earnings (not including the receipts from the Moyapur Magazine) were Rs. 15,57,432 as against Rs. 13,85,474 in 1910-11. The expenditure at the jetties rose from Rs. 7,54,927 in 1910-11 to Rs. 8,72,696 in 1911-12, an increase of Rs. 1,17,769 which was due to an increase in the charges for labour and maintenance and repairs. The increase under maintenance and repairs was due to the renewal of chains and repairs to the jetty cranes, and to the debit to Revenue of the original cost of plant and machinery which have since been discarded in favour of a more economical method of lighting.

3. *Traffic at the Jetties.*—During the year under review, 291 vessels with an aggregate tonnage of 1,024,682 were accommodated at the jetties as compared with 285 vessels with a tonnage of 967,828 during the preceding year.

The traffic at the jetties, although the imports of sugar are now handled at the Docks, shows a continuous increase, the amount of cargo handled having risen in 10 years from 530,000 tons to 895,419 tons, the figure for the year under review.

The increase of traffic will necessitate further expenditure on jetties and sheds during the current year. The river-side portion of the Mint premises having been acquired, the construction of warehouses north of the Howrah

bridge for the benefit of inland vessels and rail-borne traffic will now be undertaken. These improvements will eventually render more space available at the jetties for the handling of foreign imports.

4. *Sale Tea Warehouse.*—The number of chests sold in 1911-12 was 860,523, an increase of 25,033 chests as compared with the previous year.

5. *Petroleum Wharf.*—The total income earned in 1911-12 under this head was Rs. 4,48,703 compared with Rs. 3,56,019 in 1910-11. The total imports for the year were 75,848,894 gallons against 69,786,368 gallons in 1910-11, an increase of 6,062,526 gallons. During the year 132 vessels discharged oil at Budge-Budge against 126 in the previous year.

The expenditure during the year amounted to Rs. 60,752 compared with Rs. 46,845 in 1910-11. The whole of this increase was in respect of labour charges.

6. *Inland Vessels Wharves.*—The revenue under this head rose from Rs. 4,63,674 in 1910-11 to Rs. 4,95,214 in 1911-12, and the expenditure increased from Rs. 1,74,114 to Rs. 1,91,880, chiefly in the maintenance and repair of banks, wharves and roads.

7. *Rentable lands and buildings.*—The income from rentable lands and buildings advanced from Rs. 16,97,041 in 1910-11 to Rs. 18,44,107 in 1911-12. Of this increase in income, Rs. 47,183 was derived from lands and Rs. 99,883 from warehouses and other buildings.

8. *Port.*—During the year under review, 1,706 vessels with a gross tonnage of 6,762,228 entered the port against 1,668 vessels with a gross tonnage of 6,370,238 in the previous year; and the income, which includes mooring hire, Harbour Master's fees and charges for hauling in and out of moorings, rose from Rs. 5,27,578 to Rs. 5,78 905, an increase of Rs. 51,327. The expenditure, which amounted to Rs. 5,11,173, also shows an increase of Rs. 8,317 on the previous year.

9. *Port Approaches.*—The net registered tonnage of vessels entering the port increased from 4,003,707 to 4,208,438, and the income, which is derived chiefly from port-dues, rose from Rs. 7,40,255 to Rs 7,79,077. The expenditure, which amounted to Rs. 5,66,434, shows an increase of Rs. 8,261 on the previous year owing to more having been spent on the overhaul and repair of vessels and boats.

The following figures show the progress made in the operations of the Survey Branch of the Port and Port Approaches Department, the year under review being compared with the years 1885 and 1900-01 :—

	1885	1900 01	1911 12.
Miles sounded	1,295	5,864	7,838
River plans, charts and notices	20	606	1,069
Number of buoys (Calcutta to Diamond Harbour) ...	7	30	48
River-marks	57	115	255

10. *Improvement of the river by dredging.*—The dredger *Sandpiper* did valuable work during the year in increasing the depth of water on the bars and crossings between Diamond Harbour and Calcutta, and in checking seasonal deteriorations. Another and more powerful sand-pump dredger of special design has been ordered, so that the dredging operations may be extended to the improvement of the bars in the lower reaches between Diamond Harbour and the sea. A third dredger of the bucket-ladder type, with two large hopper barges, has also been ordered for the improvement of the river within the port.

11. *Railway.*—The income from this source rose from Rs. 13,73,120 in 1910-11 to Rs. 14,03,086 in 1912 mainly owing to the increase in the freight charges realised on the traffic *viâ* Chitpur; the receipts from terminals show a slight falling off as compared with last year, owing to the decline in the tonnage of coal consigned to the Docks and Shalimar. The expenditure increased from Rs. 10,41,291 to Rs. 10,97,865. The rolling-stock was increased by the purchase of 40 covered goods wagons. During the past six years, 300 wagons have been added to the rolling-stock, and 200 more wagons have recently been ordered. Additional lines and sidings were provided for

stabling wagons at coal berth No. 28; and over 7,000 lineal feet of new lines were laid in connection with the improvement of Railway facilities for receiving, marshalling and despatching wagons on the west side of Docks Nos. 1 and 2.

12. *Ferry Service.*—The earnings under this head rose from Rs. 2,34,402 in 1910-11 to Rs. 2,77,586 during the year under review, an increase of Rs. 43,184. The expenditure was Rs. 2,26,862.

13. *Kidderpur Docks.*—During the year 1,010 vessels were berthed at the Docks compared with 964 in the previous year.

The imports landed at the Docks decreased from 335,517 tons in 1910-11 to 316,420 during the present year, and the total tonnage of exports advanced from 4,142,911 to 4,326,845. There was a decline of 40,457 tons in the imports of sugar, and of 200,728 tons in the exports of coal, but the income from the Docks was nevertheless greater than in any preceding year.

14. *Establishment.*—Effect was given to the reductions in establishment proposed by the special officer who was deputed to enquire into the working expenses of the Trust. While there was a considerable expansion in the operations of the Trust, and the income was 7½ lakhs more than in the previous year, the expenditure under establishment was reduced by Rs. 19,585.

15. *Capital Expenditure.*—Provision was made in the Budget for an expenditure of Rs. 41,91,541 for Capital Works, to be met from the capital balance in hand at the commencement of the year and the issue of a new debenture loan of Rs. 20 lakhs. The actual expenditure, however, amounted to Rs. 47,04,850.

16. *Capital Account.*—During the year under review, a sum of Rs. 20,40,001 was raised by the issue of debentures for Rs. 20 lakhs.

The total assets, including the expenditure on Capital Works in the year 1911-12, and the value of the property as shown by the Block Account on the 31st March 1912, amounted to Rs. 10,89,63,392, while the liabilities, after allowing for the amount at credit of the Sinking Funds for the redemption of debenture loans and the Dock loan, amounted to Rs. 8,45,39,050. The assets at the close of the year thus exceeded the liabilities by nearly 2½ crores, but this figure is said to fail to represent the real strength of the position fully as the assets as shown by the Block Account include nothing in respect of the value of the Strand Bank and Howrah foreshore lands, the former of which alone may be valued at not less than Rs. 60 lakhs. Moreover, where lands have been included in the Block Account it is at their cost price, although they have greatly increased in value since the date of acquisition both on account of the general rise in land values in and about Calcutta, and also by reason of the improvements carried out.

17. *Sinking Fund.*—The total sum accumulated and deposited with the Trustees for the redemption of debenture loans upon maturity amounted at the close of the year to Rs. 1,15,19,955. During the year, the 4½ per cent. debenture loan of 1881 for Rs. 10 lakhs was liquidated, and a second payment of Rs. two lakhs was made to Government towards the amortization of the Kidderpur Dock loan.

18. *Miscellaneous Funds.*—In addition to the assets referred to, there are three other funds accumulated out of revenue, which constitute an important asset of the Trust, over and above the value of the property as shown in the Block Account and the sum set aside for the repayment of loans upon maturity, namely, the Reserve Fund, the Depreciation or Vessels Replacement Fund, and the Fire Insurance Fund. The total amount at credit of these funds on the 31st March 1912 was Rs. 14,38,301.

19. The thanks of the Governor in Council are due to the Commissioners for the able services rendered by them in administering the important duties entrusted to them, and His Excellency desires to place on record his high appreciation of the admirable work done by Sir F. G. Dumayne, Vice-Chairman.

By order of the Governor in Council,

B. K. FINNIMORE,

Secretary.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 30th December 1912.

Summary.—During the week under report there was no rainfall throughout the Province. The weather was seasonable. The harvesting of winter rice and the sowing of *rabi* crops are near ng completion. The prospects of the standing *rabi* crops are reported to be good. The average price of common rice for the Province has risen by about one per cent. as compared with that of the previous week. Cattle-disease is reported from the Midnapore district only.

No. 126.—The 7th January 1913.—Mr. Abanindra Nath Tagore, Vice-Principal, Government School of Art, Calcutta, is allowed extraordinary leave for four months and twenty-four days, under article 339 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 18th May 1912.

No. 133.—The 7th January 1913.—In the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of a certain number of scholarships, tenable by natives of India, in Europe or America. The purpose of these scholarships was to provide for natives of India that higher technical education which might qualify them to assist in promoting existing native industries and developing new industries wherever this might be possible. Technical education for this purpose was defined as (*a*) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (*b*) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, civil engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships, and agriculture was excluded from the scope of the scheme.

2. The Government of India have decided to award, during the year 1913, one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development.

3. It may, however, happen that owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

4. As regards the current year, it has been decided, after consultation with representatives of the mercantile and industrial communities, that one candidate will, if possible, be recommended for a scholarship in connection with either Mechanical Engineering or Electrical Engineering. If a second scholarship is allotted to Bengal, a second candidate may be recommended in either of the subjects. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow:—

(*a*) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent.

(*b*) Government will also be guided by considerations of the capacity and intelligence of applicants, and of the practical interest shown by them in the industries selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing.

(*c*) As a general rule, a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(*d*) No age-limit is fixed for scholars, but an age-limit may, at the discretion of Government, be fixed for any particular scholarship for which it invites applications.

6. The following are the conditions and terms on which the scholarships are tenable :—

(*a*) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions where the scholars will study, and travelling expenses ; but in special cases Government will consider proposals for increasing the amount of the scholarships.

(*b*) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(*c*) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(*d*) The scholarships are tenable by persons who are natives of India within the meaning of section 6, Statutes 33 and 34 Vic., Cap. 3.

(*e*) The scholars, while in England or elsewhere, will be under the supervision and control of the Educational Adviser of Indian students in London. The conditions under which they will hold the scholarships are given in the "Rules for Indian Government Technical Scholars in England," a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholar's residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The special attention of candidates is invited to the fact that scholars must depend upon their own exertions when they return to India, and that the Government cannot, and does not, undertake to provide them with employment.

9. All applications for scholarships to be awarded during the year 1913 must reach the Director of Public Instruction on or before the 25th February 1913.

10. Applicants for scholarships must state their birth-place, age and father's name and occupation and file certificates as to (1) moral character and antecedents, (2) educational qualifications, (3) knowledge of the language

of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to proceed and the course of studies which they propose to take up while in receipt of scholarships. They should also state whether they have had any actual experience of the industry or industries for which the scholarships are offered.

RULES FOR INDIAN GOVERNMENT TECHNICAL SCHOLARS IN ENGLAND.

1. The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian students is in a position to give them, and these rules are framed with that end in view. Government scholars, equally with private students, may consult the Educational Adviser upon any question, and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser, not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty and whenever they desire advice or information. Scholars will be regarded as being under the supervision and charge of the Educational Adviser, to whom they should in all cases address any communication they may have to make, and to whom also all reports or other communications having reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision, and will communicate to the scholar the orders passed by the Secretary of State.

2. Every scholar should, on reaching England, at once call on the Educational Adviser* and report his arrival in writing. He should leave his address with the Educational Adviser and intimate to him from time to time all changes therein.

3. Every scholar should, without unnecessary delay, inform the Educational Adviser to which University, College, or other Institution he is about to proceed, and should at once take steps to enter himself at the Institution finally selected with his approval.

4. Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow to carry out the objects of the scholarship granted to him; and he should, during his first College term, submit a further statement showing as accurately as possible the details of the total cost of such course of study. This latter statement should in every case be prepared in consultation with the Principal of the College or Institution at which the student is entered.

The course approved must not be changed without the sanction of the Secretary of State.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise daily diary, to be certified by the authority under whom he is working, and to be submitted at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

7. Scholars will be expected to continue their studies during the summer vacations of the Institutions where they are working, with the exception of three weeks in each year. Vacation study should, when possible, take the form of practical work.

8. Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for fees and travelling, must be sent in through the Principal of the Institution or the Professor under whom the scholar is working before the end of the month of April. Scholars are not entitled to any subsistence

* The Educational Adviser's office is at 21, Cromwell Road, South Kensington, S.-W.

allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Every scholar must, at the end of each term of residence at a University or College, submit to the Educational Adviser a certificate from the proper University or College authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

10. Every scholar must at all times obey such instructions as he may receive from the Secretary of State, either directly or through the Educational Adviser.

11. Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37 10s. Three months after the date of reporting arrival the amount of the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University, College or Institution during the same period or any part of it, but not in respect of University or College fees, the cost of which will be separately defrayed by the Secretary of State. Fees for private tuition are not defrayed by the Secretary of State unless previously sanctioned by him.

The necessary travelling expenses of scholars, by second class, or by third class if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Educational Adviser.

Deposits and other charges which are part of the regular fees exacted by the authorities of the educational establishment in which a scholar is working will be paid by the Secretary of State; but charges for books, instruments, hotel bills, and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

12. No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the *previous* sanction of the Secretary of State for India to such expenditure. (This does not apply to necessary travelling expenses referred to above.)

13. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under Rule 4, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India in accordance with the undertaking mentioned in Rule 5, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

14. At the expiration of his scholarship a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on this subject are to be made to the Educational Adviser.

15. Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

POLITICAL DEPARTMENT.

POLITICAL

NOTIFICATION.

No. 111P.—The 6th January 1913.—In exercise of the powers conferred by clauses (*a*) to (*d*) of section 20 of the Criminal Tribes Act, 1911 (III of 1911), the Governor in Council is pleased to make the following rules to carry out the purposes and objects of the said Act :—

Rules under section 20 (a) to (d) of the Criminal Tribes Act, 1911.

1. Every register of criminal tribes which the District Magistrate may be required to make under section 4 of the Criminal Tribes Act, 1911, shall be prepared in the form in the appendix. All entries made in the said register shall be in English and shall be attested by the District Magistrate or by the officer empowered by him to make the register on his behalf.

2. (1) The notice which the District Magistrate is required to publish under section 5 of the said Act shall be in the vernacular in the form appended to these rules and, if possible, shall be served on the members of

the criminal tribe concerned by making over to them a copy thereof and by taking a receipt therefor, and shall be published as follows :—

(a) it shall be publicly read out in a conspicuous part of the village or town where such members reside, and shall be affixed to a conspicuous part of such village or town, or if the said members reside in different villages or towns one copy of such notice shall, so far as possible, be affixed in every such village or town and the contents thereof publicly read out, and

(b) copies thereof shall be affixed to some conspicuous part of the Court-house at the head-quarters station of the district, and also to some conspicuous part of every police-station within the local limits of which all or any of the said members reside.

(2) A copy of such notice shall also be served on the headman or headmen of the village or villages in which such members reside, and thereupon such headman or headmen shall cause the contents of such notice to be proclaimed in the village by word of mouth and made known to the watchmen and landowners of the said village and their agents.

Explanation.—In the case of wandering criminal tribes having no fixed residence or place or abode, the place of residence shall be deemed to be the place where all or some members of such tribes sleep, even if they remain at such place only one night.

3. (1) The District Magistrate may add to the Register of Criminal Tribes the name of any person in respect of whom it has been proved to the satisfaction of the Magistrate that such person is a member of any registered criminal tribe or of any part thereof within his district.

(2) The District Magistrate shall not erase or order the erasure of the name of any person from such register unless—

(a) such person can prove to the satisfaction of the Magistrate that he does not belong to the criminal tribe to which he was alleged to belong and does not belong to any other registered tribe, gang or class, or that he has been living honestly for the last five years and does not associate with any registered member of a criminal tribe; and

(b) the Magistrate has considered the arguments (if any) against such erasure which the Superintendent of Police may put forward.

(3) After having ordered the erasure of the name of any person from such register the District Magistrate shall have the power again to enter it if he considers such re-entry necessary.

(4) In every case in which the District Magistrate entertains or rejects a proposal for such erasure he shall record his reasons therefor in the prescribed register.

(5) The notice which the District Magistrate is required to give, under section 7 (2) of the said Act, to any person before the name of such person is added to the register shall be given so far as is possible in the manner prescribed in rule 2 for the giving of notices under section 5 of the said Act.

4. (1) Whenever the Local Government has, under section 10 of the said Act, directed in respect of any criminal tribe that every registered member thereof shall report himself at fixed intervals, or notify his place of residence and any change or intended change of residence and any absence or intended absence from his residence, every such registered member shall report himself once a week, on such day as may be fixed by the Superintendent of Police, to the officer in charge of police-station within the local limits of which his village or town of residence is situated :—

Provided that—

(a) if such member resides outside a radius of ten miles from such police-station he shall report himself only once a fortnight,

(b) if such member resides outside a radius of five miles from such police-station he shall report himself only once a fortnight during the months of July, August and September, and

(c) if such member is prevented by sickness or other infirmity from reporting himself he shall give immediate intimation of his inability to do so to the village watchman.

(2) In like manner every such member who intends to change his residence shall, when he intends such change, attend in person at the police-station nearest to his then place of residence and there notify to the officer in charge the place to which he intends to change his residence, and the probable date of such change.

When such place is situated within the local limits of the police-station in which such member is then residing the intended change shall be notified as above at least three days before such probable date, and when such place is situated outside the local limits of such police-station the intended change shall be so notified at least seven days before such probable date :

Provided that if for any reason such member does not, within seven days from the date which he has notified as the probable date, of his change of residence, take up his residence at the place so notified, he shall at once notify in the manner prescribed above any other intended change of residence.

(3) Every such member who shall have changed his residence as provided above shall, within three days from the date of his arrival at a new place of residence within the local limits of another police-station, report himself to the officer in charge of such police-station, and thereafter shall continue to report himself at fixed intervals as laid down in rule 4 (1) ; or notify his place of residence and any change or intended change of residence and any absence or intended absence from his residence to such officer as prescribed in this rule.

(4) In like manner every such member who intends to absent himself from his residence for one or more nights shall, if he intends to travel temporarily within the local limits of some other police-station or stations, notify, at least three days before his departure, the places to which he intends to proceed, and the probable dates of his arrival at and departure from such places, in the manner prescribed in sub-rule (2) for notifying an intended change of residence.

On arrival at each of his destinations such member shall report himself at once to the village watchman, and in case he stays at such village for more than seven days, shall report himself immediately after the expiration of the seventh day to the officer in charge of the police-station within the local limits of which he may happen to be, and shall, so long as he remains within such local limits, continue to report himself at fixed intervals, as laid down in rule 4 (1), or notify his place of residence and any change or intended change of residence and any absence or intended absence from his residence to such officer as prescribed in this rule.

KING'S POLICE MEDAL.

Delhi, the 1st January 1913.

The KING-EMPEROR has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments.

* * * * * *

BENGAL.

12.	Mr. Robert Henry Sheyd Hutchinson, Superintendent of Police.	For excellent and valuable service.
13.	Mr. Sonam Wangfel Laden La, Officiating Deputy Superintendent of Police, Darjeeling.	Ditto ditto.
14.	Surajbali Goala, Constable. Calcutta Police.	A notorious burglar armed with a knife was absconding after mortally wounding another constable in Cornwallis Street. Constable Surajbali Goala arrested him and, in spite of being twice stabbed, once in the neck and once behind the right ear, maintained his hold of the accused and secured him at the risk of his life. His assailant was sentenced by the High Court to 10 years' rigorous imprisonment.
15.	Saiyid Hussain, Head Constable, Bengal Police.	He risked his life in rescuing a boy from being drowned in the Bhairab river in the month of August 1910.
16.	Mr. Adolf Friederich, Assistant Engineer, Calcutta Fire Brigade.	This officer did exceptionally good work in rescuing 11 women and children from the premises No. 108, China Bazar Street, during a fire which occurred on the 9th November 1911. The women and children were in the upper storeys of the building, the lower portion of which was stocked with imitation coral, a highly inflammable compound. This fireman ascended the fire-escape ladder, time after time, and with great difficulty rescued the women and children in question.
17.	Mr. James Little, Fireman. Calcutta Fire Brigade.	He took an equal part with Mr. Friederich in rescuing the women and children during the China Bazar fire.

Administration and Progress of India under British Rule.

N. N. Ghose ... England's Work in India.

GEOGRAPHY.

The following books are recommended as indicating the methods of study as well as the standard of knowledge required :—

A. J. Herbertson ... The Oxford Geographies, Vol. II.

The World with fuller treatment of India (Longman's Geographical Series for India, Book II).

J. F. Unstead ... The Practical Geography, Parts I and II.

The following books are recommended for the use of teachers :—

Blanford	The Rudiments of Physical Geography for the use of Indian Schools.
Patterson	Geography of India, Parts I and II.

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

A. E. Frye ... ... The Child and Nature.

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I.—The total cost need not exceed Rs. 65—

1. A measuring tape.
2. A magnetic compass.
3. Squared paper and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe, not less than 14 inches in diameter, with writing surface, and with lines of latitude and longitude, and outlines only of the landmasses, marked upon it.

6. A map of the school locality on a scale of 4" or 6"=1 mile.
7. A map of the district in which the school is situated on the scale 1"=1 mile.
8. A coloured map of the Province.
9. A coloured map of India.
10. A relief map of India.
11. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps. Maps for school work should not contain too much detail, or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a bar to the recognition of the school in Geography :—

1. A thermometer.
2. A mercury barometer.
3. A rain gauge.
4. A small collection of typical rocks, in particular those of the Province and of India..
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.

The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailas Chandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand Globes of German make can be obtained through the Calcutta School Book Society for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various d stributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps; also ordinary and relief maps of the Province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card board, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris, and Messrs. Hölzel of Vienna and Messrs. Longmans Green & Co. They cost, delivered in India, from two to three rupees each.

Map lantern slides, and view slides especially prepared for geography teaching, are sold by the Diagram Company for two or three shillings each. Mr. Barlington Smith of Darjeeling also sell good picture slides of the Himalayas at Rs. 15 per dozen.

ELEMENTARY MECHANICS.

The following book is recommended :—

Sir Philip Magnus ... Elementary Mechanics (Longmans, 1903).

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.
Simple Lever (including brass slotted weights).
Roman Steelyard.
Lecture apparatus for experiments on moments.
George's New Atwood's Machine.
Stop-watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single brass Pulleys.
2 ,, ,, ,,
2 Triple ,, ,,
Weston Differential Pulley Blocks (½ ton).
16 feet of chain at *6d.* per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of Gramme Weights (200 grams to 1 mgr.).
2 Composition-Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever *mistry* under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual accounts or working in pairs.

Mitra, H. N.	...	Structural Botany, Part I, Morphology (S. K. Lahiri & Co.).
Fyson P. F.	...	A Botany for India.

Candidates who take up Botany will be required to possess a special knowledge of the following Natural Orders of plants :—

(1) Cruciferae.
(2) Malvaceae.
(3) Rhamnaceae or Sapindaceae.
(4) Leguminosae.
(5) Cucurbitaceae.
(6) Rubiaceae.
(7) Compositae.
(8) Solanaceae.
(9) Labiatae.
(10) Amarantaceae.
(11) Commelynaceae.
(12) Gramineae.

At the Intermediate Examinations in Arts and Science a study of the outline of the life history of the following "Selected plants" is required to illustrate the gradual ascent in complexity of structure and reproductive cycle from the lowest fungi and algae to the phanerogams :—

(1) Yeast.
(2) Mucor or Euroteum.
(3) Spirogyra.
(4) A Moss.
(5) A Fern.
(6) A Conifer.
(7) A Monocotyledon.
(8) A Dicotyledon.

The following books are recommended :—

1. Higher Plane Trigonometry—

Todhunter	... Plane Trigonometry, edited by Hogg.

2. Plane Analytical Geometry—

Loney ...	... Elements of Co-ordinate Geometry.
C. Smith ...	... Elementary Treatise on Conic Sections.

3. Differential Calculus—

Edwards ...	... Differential Calculus for Beginners.
Ganesh Prasad	... Differential Calculus.

4. Integral Calculus and Differential Equations—

Edwards ...	... Integral Calculus for Beginners.
Taylor ...	... The Differential and Integral Calculus and Differential Equations.
Ganesh Prasad	... Integral Calculus.

5. Hydrostatics—

Besant ...	... Elementary Hydrostatics.
Loney .	... Elements of Hydrostatics.

6. Astronomy—

Parker ...	... Elements of Astronomy.

Honours Course.

1. Higher Algebra—

Hall and Knight	... Higher Algebra.
C. Smith ...	... A Treatise on Algebra.

2. Elementary Theory of Equations—

Cajori ...	... Introduction to Theory of Equations, Chapters I—VII.

3. Higher Plane Trigonometry—

Todhunter	... Plane Trigonometry, edited by Hogg.

4. Plane Analytical Geometry—

Loney ...	... Elements of Co-ordinate Geometry.
C. Smith ...	... Elementary Treatise on Conic Sections.
Salmon ...	... Conic Sections.

5. Elementary Solid Geometry—

C. Smith ...	... Elementary Treatise on Solid Geometry.
Bell ...	... Analytical Geometry of Three Dimensions.

6. Elementary Principles of Vectors—

Kelland and Tait	... Introduction to Quaternions, 3rd Edition, edited by Knott.
Henrici and Turner ...	Vectors and Rotors.

7. Differential Calculus—

Williamson ... Differential Calculus.

8. Integral Calculus and Differential Equations—

Williamson ... Integral Calculus.
Murray ... ... Introductory Course in Differential Equations.

9. Statics—

Minchin ... ... Statics, Volume I.
Jeans ... ... Theoretical Mechanics.

10. Dynamics of a Particle—

Loney ... ... Dynamics of a Particle.
Jeans ... ... Theoretical Mechanics.
Cox ... ... Mechanics.

11. Hydrostatics—

Besant ... ... Elementary Hydrostatics.
Loney ... ... Elements of Hydrostatics.

12. Astronomy—

Parker ... ... Elements of Astronomy.
Young ... ... Manual of Astronomy.

N.B.—Candidates who take up Mathematics at the B.A. or B.Sc Examination are recommended to refer to Saxelby's Practical Mathematics. Candidates who take up Honours in Mathematics at the B.A. or B.Sc Examination are recommended to refer to Cox's Mechanics.

PHYSICS.

Pass Course.

Deschanel and Evoutt ... Treatise on Natural Philosophy, Parts I, II and IV.
Hadley ... ... Magnetism and Electricity for Students.

Pass Practical.

Schuster and Lees ... Advanced Exercises in Practical Physics
Harrison ... ... A Course of Practical Physics.

HONOURS COURSE.

(In addition to the books prescribed for the Pass Course.)

Poynting and Thomson Sound.
Edser ... ... Heat for Advanced Students.
Maxwell ... ... Theory of Heat.
Edser ... ... Light for Students.
Foster and Porter ... Elementary Treatise on Electricity an Magnetism.

Honours Practical.

Watson ... ... Text-book on Practical Physics.
Henderson ... ... Practical Physics.

N.B.—Candidates who take up the Honours Course in Physics at the B.A. or B.Sc. Examination are recommended to refer to Saxelby's Practical Mathematics.

CHEMISTRY.

Pass Course.

Van Deventer ... Physical Chemistry for Beginners.

Beddard, Edkins, Hill, Pembrey and Macleod.		Practical Physiology.

Honours Course.

Halliburton ...	...	Handbook of Physiology.
Stewart ...	...	Manual of Physiology.
Howell ...	...	Text-book of Physiology.

Practical.

The same as for the Pass Course.

Syllabus in Experimental Physiology.

Pass Course.

The induction coil; single shocks: short circuiting key; effect of single shocks on the tongue; break-shock is stronger than the make-shock. Helmholtz's Modification; Neef's Hammer.

Pithing a frog; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.

The Graphic method: Simple lever; crank lever (myograph); moist chamber, Minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current: contraction of muscle only at make and break.

The muscle curve:—Single contraction of a frog's muscle: the latent period, the period of contraction and the period of relaxation. Time-tracing by tuning-fork. Method of after-loading. The influence of temperature and of load on muscular contraction. The work performed by a muscle during a twitch.

Elasticity and extensibility of muscle.

Summation of muscular contraction: tetanus.

Fatigue of muscle.

Thickening of a muscle on contraction.

Bernard's curare experiment.

Stimulation of a motor nerve; unequal excitability (greater nearer the centre of a motor nerve); excitability of flexor and extensor nerves.

Velocity of nerve-impulse (myographic method).

Electro-Physiology :—Galvani's experiment of contraction with metals; Galvani's experiment of contraction without metals.

The Frog's heart :—Beating of the heart; effect of heat and cold (heart *in situ*); section of the heart; effect of heat and cold on excised heart.

Stannius' experiment.

Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever).

Pulse—Sphygmographic tracing.

Blood-pressure in man: Sphygmometer and Sphygmomanometer.

Reflex action (simple experiments on a pithed frog).

Vision :—Accommodation; Scheiner's experiment: near and far point; Purkinge-Sanson's images: Phakoscope; Blind spot; yellow spot; Colour vision: Complementary colours.

HONOURS COURSE.

Additional Experiments—

The Induction Coil—Break extra-current of Faraday.

The Rheonome: Effect of sudden variation of current.

Isotonic and Isometric contraction.

Influence of veratrine on muscular contraction.

Indefatigability of nerve.

Excitation of muscle by constant current: Polar excitation of a muscle.

Electrotonus. Electrotonic changes in excitability and conductivity of a nerve.

Kuhne's experiment of contraction without metals.

Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer.

Frog's heart—Minimal stimulus causes maximal contraction. "Staircase effect." Single contraction of the ventricle. Tetanisation. Refractory period. Stimulation of the vagus. Action of drugs (Muscarin and Atropin) on the heart.

Voice and Speech: Laryngoscope.

Vision: Ophthalmoscope; Perimeter.

GEOLOGY.

No text-books are prescribed or recommended. The subject is to be studied with the help of the Syllabus prescribed in the Regulations.

EXPERIMENTAL PSYCHOLOGY.

The subject is to be studied as defined by the Syllabus. Students are recommended to use one or more of the following books or select portions thereof, with special reference to the course laid down in the Syllabus :—

Pass Course.

I.—General Psychology.

Hoffding	...	Outlines of Psychology.
Wundt	...	Human and Animal Psychology.
William James	...	Text-book of Psychology.
J. Dunlop Leckley	...	The Nervous System (Longman & Co.).

Preparatory Reading—Students are advised to read Stout's Groundwork of Psychology before joining the regular class.

II.—Experimental Psychology.

Titchener ...	...	Outlines of Psychology.
Külpe ...	...	Outlines of Psychology.
Scripture ...	...	New Psychology.

Laboratory Course—Titchener's Experimental Psychology, Volume I, Part I, and Volume II, Part I.

Honours Course.

I.—General Psychology—Same as in the Pass Course.

II.—Physiological and Comparative Psychology.

Wundt ...	...	Outlines of Physiological Psychology (Volume I).
Ladd ...	...	Elements of Physiological Psychology.
Romanes ...	...	Mental Evolution in Man.
Romanes ...	...	Mental Evolution in Animals.
Lloyd Morgan	...	Comparative Psychology.
Herbert Spencer	...	Principles of Psychology (Volume I).

III.—Experimental Psychology—

In addition to the books recommended for the Pass Course, the following :—

Ziehen	...	Introduction to Physiological Psychology.
Ladd	...	Elements of Physiological Psychology.

N.B.—No text-books are recommended for the guidance of teachers.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

M.A. AND M.SC. EXAMINATIONS, 1915.

MATHEMATICS.

NOTE.—It is to be understood that, in the following list of Text-books wherever a book is recommended for a subject, students are expected to read those parts of the book only which deal with that particular subject :—

Pure Mathematics.

1. Higher Algebra—

Chrystal ... ... Algebra, Part II, Chapters 23—28, 32—34.
C. Smith ... ... A Treatise on Algebra.

2. Higher Plane Trigonometry—

Hobson ... ... Plane Trigonometry.

3. Spherical Trigonometry—

Casey ... ... Spherical Trigonometry.
Todhunter ... ... Spherical Trigonometry (Ed. Leathem).

4. Theory of Equations and Algebra of Quantics—

Burnside and Panton .. Theory of Equations.
Grace and Young ... Algebra of Invariants.
Elliott ... ... Introduction to the Algebra of Quantics.

5. Plane Analytical Geometry, including Higher Plane Curves—

Salmon ... ... Conic Sections.
Salmon ... ... Higher Plane Curves.
Basset ... ... Treatise on Cubics and Quartics.

6. Geometry of Surfaces—

Salmon ... ... Geometry of Three Dimensions.
Frost ... ... Solid Geometry.

7. Differential Calculus—

Edwards ... ... Differential Calculus.
Osgood ... ... Differential and Integral Calculus.

8. Integral Calculus—

Williamson ... ... Integral Calculus.
Osgood ... ... Differential and Integral Calculus.

9. Differential Equations—

Forsyth ... ... Differential Equations.

10. Calculus of Variations—

Bolza ... ... Lectures on the Calculus of Variations.
Hancock ... ... Calculus of Variations.

11 (*a*) Theory of Functions—

Harkness and Morley Introduction to the Theory of Analytic Functions, *or* the corresponding portions of—
Forsyth ... ... Theory of Functions, 2nd edition.

(*b*) Theory of Groups—

Hilton ... ... Finite Groups.
Campbell ... Theory of Continuous Groups.

(*c*) Finite Differences and Calculus of Functions—

Boole ... ... Finite Differences.
Carmichael ... Calculus of Operations.

Herschel ... Examples of Calculus of Finite Differences.
Babbage ... Examples of Functional Equations.
Whittaker ... Modern Analysis.

(*d*) Vector Analysis and Quaternions—

Joly ... ... Quaternions.
Tait ... ... Quaternions.
Gibbs and Wilson ... Vector Analysis.
Gibbs ... ... Scientific Papers, Vol. II, pp. 17—90.

(*e*) Projective Geometry—

Cremona ... Projective Geometry.
Scott ... ... Modern Analytical Geometry.
Reye ... ... Geometry of Position. Tr. Holgate.
Whitehead ... Axioms of Projective Geometry (Cambridge Tracts No 4).
Whitehead ... Axioms of Descriptive Geometry (Cambridge Tracts No. 5).
Veblen and Young Projective Geometry.
Bonola ... ... Non-Euclidean Geometry.

(*f*) Theory of Numbers—

Matthews ... Theory of Numbers.
Smith ... ... Reports on the Theory of Numbers. (Collected papers, Vol. 1, pp. 38—364).

Mixed Mathematics.

1. Advanced Statics, including Theory of Potential—
   Minchin ... Statics.
   Routh ... ... Statics.

2. Dynamics of a Particle—
   Routh ... ... Dynamics of a Particle.

3. Rigid Dynamics—
   Routh ... ... Elementary Rigid Dynamics.

4. Hydrostatics, including Capillarity—
   Besant and Ramsay Hydrodynamics, Part I (Hydrostatics).

5. Hydrodynamics—
   Lamb ... ... Hydrodynamics.

6. Spherical Astronomy—
   Ball ... ... Spherical Astronomy.

7. (*a*) Theory of Elasticity—
   Love ... ... Theory of Elasticity, 2nd edition.

   Candidates are also recommended to refer to—
   Todhunter and Pearson. History of Theory of Elasticity.

   (*b*) Advanced Dynamics—
   Whittaker ... Analytical Dynamics.
   A. C. Webster ... Dynamics.
   Routh ... ... Advanced Rigid Dynamics.
   Hertz ... ... Principles of Mechanics.

   (*c*) Higher Parts of Spherical Astronomy.
   Chauvenet ... Spherical Astronomy.
   Newcomb ... Spherical Astronomy.

(*d*) Lunar and Planetary Theories—

Adams ...	... Lectures on Lunar Theory.
Airy ...	... Mathematical Tracts.
Brown ...	... Lunar Theory.
Cheyne ...	... Planetary Theory.
Moulton	... Celestial Mechanics.

(*e*) Figure of the Planets—

Todhunter	... History of the Theory of Attraction and the figure of the Earth.
Thomson and Tait ...	Natural Philosophy.
Airy ...	... Mathematical Tracts.
Airy ...	... Figure of the Earth. Enc. Metr.
Clark and Radau ...	Figure of the Earth. (Enc. Britt. Vols. VII and XXVII).
Pratt ...	... Figure of the Earth.

(*f*) Theory of Tides—

Basset ...	... Hydrodynamics.
Darwin ...	... Tides and Kindred Phenomena. (Murray, 1898.)
Darwin ...	... Tides. (Enc. Britt. Vols. XXIII and XXXIII.)
Darwin...	... Scientific Papers, Vol. I, Pt. I.
Airy ...	... Tides and Waves. (Enc. Metr.)

PHYSICS.

No text-books are prescribed or recommended.

The students are required to consult their Professors as to a suitable course of reading, which should include the study of original papers.

CHEMISTRY.

(In addition to the books recommended for the B.A. and B.Sc. Pass and Honours Courses.)

(*a*) PHYSICAL CHEMISTRY.

Ostwald Walker ...	... Physico-Chemical Measurements.
Nernst (trans. by Lehfeldt).	Theoretical Chemistry, 4th edition.
Mellor ..	... Chemical Dynamics and Reactions.
Findlay ...	... The Phase Rule.
Lehfeldt ...	... Electro-Chemistry.
Van t'Hoff ...	... Lectures on Theoretical and Physical Chemistry.
Jeans ...	... Dynamical Theory of Gases.
Travers ...	... Study of Gases.
Rutherford ...	... Radio-Activity.
Thomsen ...	... Thermo-Chemistry.
Ostwald ...	... Principles of Chemistry.
E. C. Baly	... Spectroscopy.
S. Young ...	... Stoichiometry.

(*b*) INORGANIC CHEMISTRY.

Myer ...	... History of Chemistry.
Fresenius ..	... Qualitative Analysis and Quantitative Analysis.
Sutton ...	... Volumetric Analysis.
Hempel ...	... Gas Analysis.
Treadwell and Hall ...	Analytical Chemistry, Vols. I and II.
Roscoe and Schorlemmer	Treatise on Chemistry, Vols. I and II.
F. M. Perkin ...	Practical Methods in Inorganic Chemistry.

(c) ORGANIC CHEMISTRY.

Richter ...	... Organische Chemie (9th edition).
Gattermann	... Practical Organic Chemistry.
J. B. Cohen	... Advanced Organic Chemistry.

Candidates for the M.A. or M.Sc. Examination are required to consult original papers in the Chemical Society's Journals and other Scientific periodicals, and also to consult the Annual Reports issued by the Chemical Society on the "Progress of Chemistry," in connection with the especial subject taken up by them.

GEOLOGY.

No text-books are prescribed or recommended. The subject is to be studied in accordance with the syllabus prescribed in the Regulations.

PHYSIOLOGY, 1913, 1914 AND 1915.

(No text-books are prescribed.)

In section 7, Chapter XXXVII of the Regulations, in first paragraph of the syllabus in Physiology, for the M.Sc. Examination the expression "a particular branch" is interpreted to mean one of the following branches:—

1. Circulation and Respiration.
2. Alimentation and Metabolism.
3. Physiology of the Central Nervous System and the Organs of Sense.
4. Physiology of the Nervous System and the Muscular System.
5. Histology and Reproduction.

The four theoretical papers in Physiology be distributed so as to cover the following subjects:—

Paper I.—Circulation, Respiration, Alimentation, Metabolism and Reproduction (compulsory to all candidates).

Paper II.—Nervous System and Muscular System. (Candidates offering a piece of research work falling under the head of "Organs of Sense" will be exempted from this paper.)

Paper III.—Organs of Sense. (Candidates offering a piece of research work falling under any of the following heads—Circulation, Respiration, Alimentation, Metabolism, Reproduction, Nervous System, Muscular System and Histology—will be exempted from this paper.)

Paper IV.—The branch of Physiology professed by the candidate for special study.

The Practical Examination will include—

Paper I.—Experimental Physiology. (Candidates offering research work falling under the head of Histology or Chemical Physiology will be exempted from this paper.)

Paper II.—Histology. (Candidates offering research work falling under the head of Chemical Physiology will be exempted from this paper.)

Paper III.—Chemical Physiology.

Paper IV.—Candidates' special subject.

BOTANY.

No text-books are prescribed. The subject is to be read in accordance with the prescribed Syllabus.

ZOOLOGY AND COMPARATIVE ANATOMY.

(No text-books are prescribed.)

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him free of revenue demand.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

CALCUTTA, THE 26TH DECEMBER 1912.

RESOLUTION—No. 7456.

IN the Resolution of the Government of Bengal, No. 567T.—G., dated the 27th May 1912, a Committee was appointed to consider a scheme for the creation of a teaching and residential University at Dacca. The report of the Committee has now been received, and, in accordance with the promise made in the Resolution referred to, is published and circulated for comment and advice. A copy of the report will be forwarded to every subscriber to the Gazette as well as to the newspapers, the leading associations in the province and other persons likely to be interested in the question. Copies can also be obtained at the Book Depôt, Writers' Buildings, at the price of 4 annas per copy. The Governor in Council will take the report into consideration on the 15th February next, and will be glad to receive before that date any criticisms or comments regarding it which may be offered. All such communications should be addressed to the undersigned.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE PRESIDENCY OF BENGAL FOR THE YEAR 1911-12.

REVENUE DEPARTMENT.

LAND REVENUE.

CALCUTTA, THE 3RD JANUARY 1913.

RESOLUTION—No. 11.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year 1911-12.

THE report deals with the Land Revenue Administration of the Presidency of Bengal as now constituted, viz., of the districts of the Burdwan, Presidency, Rajshahi, Dacca and Chittagong Divisions. In the former province of Bengal the revenue year ended on the 31st March, whereas in Eastern Bengal and Assam it ended on the 30th June. The present report deals with the whole Presidency for the year ending on the 30th June 1912. Separate statistics have been compiled for the Burdwan and Presidency Divisions for the quarter ending on the 30th June 1911.

2. There was only one Member of the Bengal Board of Revenue during the year under review. Mr. R. T. Greer, C.S.I., held charge from the 1st to the 13th July 1911, and the Hon'ble Mr. D. J. Macpherson from the 24th July to the end of the year. During the period between the 13th and 24th July, Mr. Greer performed the non-statutory functions of the Board in addition to his duties as Member of the Executive Council. In Eastern Bengal, the office of First Member was held by the Hon'ble Mr. P. G. Melitus, C.S.I., C.I.E., from the 1st July 1911 to the 14th March 1912, and by the Hon'ble Mr. J. C. Arbuthnott, C.I.E., in addition to his own duties as officiating Second Member, from the 15th to the 31st March 1912, when the Board was abolished on the abolition of the province. The Hon'ble Mr. H. LeMesurier, C.S.I., C.I.E., officiated as Second Member from the 1st July to the 31st October 1911, when he was relieved by the permanent Member, the Hon'ble Mr. P. C. Lyon, C.S.I., who held the post from then till the 2nd January 1912. The Hon'ble Mr. Arbuthnott officiated as Second Member from the 2nd January to the 31st March 1912. In view of the establishment of an Executive Council, the Secretary of State has decided that the Board of Revenue in Bengal shall henceforth consist of one Member only, and a Bill to legalise this arrangement as a permanent measure will shortly be introduced in the Bengal Legislative Council. A considerable portion of the non-statutory functions of the Board has been transferred to the Revenue and Financial Departments of Government, as it was found that the work was too heavy for a single Member to undertake.

3. *Land revenue demands, collections, balances and remissions.*—The current demand of the year was Rs. 2,69,51,192, an increase of Rs. 2,02,901 over that of the previous year. The percentage of total collections on the total demand was 96·24, and on the current demand was 99·68, the results being much the same as in the previous year. The greater part of the balance is due from estates under direct management.

4. *Road and Public Works cesses.*—The current cess demand shows a small increase of Rs. 14,309 over that of the previous year. The percentage of total collections on the current demand is satisfactory, being 101·4 as against 100 in the previous year. The general district average is good, 15 districts showing percentages of 100 or over.

The chief features of the administration of the Cess Act during the year were the completion of the important revaluation in Bakarganj, and the initiation of general revaluation proceedings in the 24-Parganas, Nadia, Jessore

Dinajpur and Bogra. In Faridpur and Jalpaiguri, the work is being carried on by the Settlement Department. Certain complaints which have been received regarding the conduct of the revaluation proceedings in Bakarganj are now under the investigation of the Board.

5. *Money-orders.*—The amount of land revenue and cesses remitted by money-order continues to increase, and exceeded 17 lakhs during the year. As the land revenue and road-cess tauzis have now been amalgamated in most districts of the Presidency, a combined money-order form for land revenue and cesses, which ought to prove a convenience to the public, is now under consideration.

The system of payment of rent by money-order is in force throughout the Presidency, except in Darjeeling and the Chittagong Hill Tracts. Though the total number of money-orders issued shows a decrease, there was a small increase in the aggregate sum remitted, which amounted to nearly ten lakhs. The practice of payment by money-order is most common in the Chittagong district, which accounted for nearly one-fifth of the total number of money-orders issued in the province. It is noteworthy that in Chittagong only 3 per cent. of the money-orders issued were refused by the landlords, while in Mymensingh, where only 1,537 money-orders were issued, nearly half were refused. The refusal of rent paid by money-order is an almost certain indication of the existence of disputes between landlord and tenant, and it is therefore satisfactory to find that, generally speaking, the percentage of refusals is highest in districts where the number of money-orders issued is comparatively small.

6 *Coercive measures.*—The revenue sale law was, as usual, administered with leniency and moderation. Although over 10,000 estates defaulted and rendered themselves liable to sale, only 878 were actually sold The number of certificates filed, inclusive of those on cess accounts, was 98,003 as against 82,584 in the previous year. The increase was most marked in connection with cess dues, Chittagong alone showing an increase of some 9,000 over the figures of last year, owing to difficulties in realization from the owners of a number of revenue-free estates which were assessed for the first time at the recent revaluation of the district. In the great majority of cases, the arrears were paid up on the attachment of property under the certificate, and it was necessary to have recourse to actual sale in only 2,295 cases, or little more than 2 per cent. of the total number of cases disposed of during the year.

7. *Condition of the raiyats in Government estates and expenditure on improvements and education*—The general agricultural prosperity of the province was reflected in the condition of the raiyats in the Government estates. The total number of estates under direct management was 2,199 with a current demand of Rs. 38,76,171 Rupees 1,56,156 was spent on miscellaneous and sanitary improvements, nearly half of it being devoted to drainage, irrigation and embankments. Expenditure on education amounted to Rs. 55,139. There are now 2,293 schools, attended by nearly 75,000 pupils, in the Government estates of the Presidency. Nearly half the schools are in the Burdwan Division, which contains the large estates of Majnamutha and Jalamutha. The expenditure on roads and communications in Government estates was Rs. 1,47,281, about double the Government 1½ per cent. grant, the balance being met from local funds.

8. Owing to the good seasons experienced, there was only a small demand for advances under the Land Improvement and Agriculturists' Loans Acts. The realization of advances made in previous years was however unsatisfactory, the amount overdue being more than two and-a-half lakhs, and the Governor in Council is glad to see that the Board is calling the attention of the district officers to this matter. Unless the loans issued in years of scarcity are recovered in prosperous seasons, the grant of these advances practically degenerates into charitable relief.

9. *Drainage, irrigation and embankments.*—These operations are mainly confined to the Burdwan and Presidency Divisions. The Magra Hât Drainage Scheme in the district of the 24-Parganas has now been practically completed, and it is gratifying to observe that the whole of the area reclaimed has been brought under cultivation.

There were no serious floods during the year except in the Birbhum district, where private embankments are said to have been much neglected. The Public Works Department will be consulted on the Collector's suggestion that an expert investigation should be made into the matter.

10. *Partitions.*—Sixty-four partition cases were instituted during the year and 56 were disposed of. An interesting departure was made by the late Government of Eastern Bengal and Assam in making over partition cases to Settlement Officers for disposal in the course of district settlement operations, but none of the cases so made over have yet been decided, and it is not possible at present to say whether Settlement Officers will be able to undertake successfully this heavy addition to their work, without unduly delaying the preparation of the record-of-rights.

The amendment of the Estates Partition Act was under consideration both in Bengal and in Eastern Bengal and Assam during the year, but no final conclusion was reached before the reconstitution of the provinces took place. The question was further discussed at the recent Commissioners' conference, and it is hoped that definite proposals will shortly be made which will enable much-needed improvements in partition procedure to be effected.

11. *Sundarbans.*—The difficult question of the system to be adopted in the reclamation of the Sundarbans in Western Bengal has not yet been decided, and is now being reconsidered in the light of the successful results obtained in Bakarganj Meanwhile the issue of new leases in the 24-Parganas and Khulna has been kept in abeyance. In Bakarganj over 8,000 bighas were settled with 317 new colonists during the year. The construction and the maintenance of dams and embankments are being steadily carried out, and there is still a large demand for lands thus protected from the influx of salt water.

12. *Working of the Tenancy Act.*—The Act is reported to have worked smoothly on the whole, but it is doubtful whether the absence of friction is not due in a good many areas to ignorance of the provisions of the Act. The exaction of abwabs or illegal cesses is still deplorably common, but the extension of settlement operations and the preparation of records-of-rights are teaching the raiyats their rights and encouraging them to resist the levy of unlawful dues. It is reported that the revised procedure for the payment of landlords' fees is working satisfactorily and has effected considerable improvement.

13. *Weather, crops, etc., etc.*—Crops were generally good, though prices still ruled high. There was a good demand for all classes of labour throughout the Presidency, and wages show no signs of declining. Floods caused some damage in limited areas, but the only district in which any serious distress occurred was the Chittagong Hill Tracts, in which early rain prevented the successful burning of "*jums*," while at a later stage swarms of rats appeared in the north and east of the district and caused considerable damage to the paddy crop. In order to relieve the situation, agricultural loans were distributed to the amount of over a lakh.

14. The Governor in Council desires to thank the Board for their administration of the Land Revenue Department. The names of the officers mentioned as deserving of special commendation have been noted and will be recorded by the Appointment Department.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Winter *Til* (Sesamum) Crop of Bengal, 1912-13.

(NOTE.—On the average of the five years ending 1910-11, the area under TIL *in Bengal represents some 5·9 per cent. of the total area under* TIL *in British India.)*

Explanatory.—Under recent Government orders, only two forecasts of the *til* crop will be issued for the province. This forecast deals with the winter or late variety of the crop, which is grown during the rainy season and harvested during the winter months.

Character of the season.—At sowing time the weather and rainfall conditions were generally favourable and the crop was sown in normal time in most districts. Subsequently the unequal distribution of the rainfall interfered with the growth of the crop to some extent. The cyclonic weather during the latter part of October and the beginning of November also did damage in places to the crop already ripe for harvesting.

Acreage.—The total area cultivated with the crop as estimated by the District Officers is 64,700 acres this year against 76,700 acres last year. The decrease occurred chiefly in Tippera and the Chittagong Hill Tracts owing to the fact that the crop was not cultivated this year in the Chandpur subdivision of Tippera and that the cultivators in the Chittagong Hill Tracts could not sow full area owing to scarcity.

Outturn.—According to the estimates of the District Officers, the outturn of the crop for the province works out to 86 per cent. of the normal against 82 per cent. last year. The gross yield for the province is estimated at 10,400 tons against 11,800 tons last year.

The area under the summer *til* crop is estimated at 186,500 acres this year and the gross yield at 28,900 tons this year against 29,700 tons last year.

The total outturn of the *til* crops (both summer and winter) in Bengal, therefore, is estimated at 39,300 tons against 41,500 tons last year.

CALCUTTA,
The 24th December 1912

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 6th January 1913.

Summary.—During the week under report there was no rainfall throughout the Province except some light showers in Darjeeling and in parts of Chittagong. The weather was seasonable. The harvesting of winter rice is approaching completion. The prospects of standing *rabi* crops are reported to be good. The average price of common rice for the Province has fallen slightly as compared with that of the previous week. Cattle-disease is reported from Malda, Mymensingh, Tippera and Noakhali but is confined to particular localities.

No. 2831—42.

Extract (paragraphs 1 and 2) from the proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with

an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

The 14th January 1913.

No. 1.—Notification.—In exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to make the following amendments in the revised Schedule of Tolls in force on the Calcutta Canals and Tolly's Nala and in the rules for the management of navigation thereon, published in

Notification No. 144, dated the 30th May 1893 (at page 493 of Part I of the *Calcutta Gazette* of the 31st idem), namely:—

After item 13 *add* the following item:—

"14. During the period from the 1st December to 15th June boats laden with rice will be allowed to proceed to or from the river Biddiadhari through the Circular Canal and the Tolly's Nala *via* Kidderpore on payment of a rate of one rupee and twelve annas per hundred maunds of measured maundage for passage through these canals.

For purposes of reckoning demurrage charges under item 11 of this schedule in the case of such boats during the said period, two extra days will be allowed over and above those provided for vessels plying on the Tolly's Nala.

Boats plying under this concession will not be allowed either to load or to unload along the Circular Canal or the river Hooghly. Infringement of this rule will render the boats liable to the ordinary tolls in force for the Circular Canal and Tolly's Nala."

NOTIFICATION.

Post-Graduate Research Scholarship, 1913.

1. Two post-graduate Research scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1913.

2. No candidate will be considered who has not passed the M.A., the M.Sc., the M.D., the D.L., or the Master in Engineering Examination of the Calcutta University in 1910, 1911 or 1912. No candidate will be considered who is not possessed of high qualifications, and who cannot show that he has a capacity for original research or who is not a *bonâ-fide* native of West Bengal.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subject, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as a Language, Comparative Philology, Palæography, Epigraphy, Philosophy, History, Archæology, Anthropology, etc.; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear, by the programme which he submits, that he has thought out a definite course of enquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research and *vice versâ*. Each candidate for a scholarship must state as definitely as possible the subject or branch of a subject in which he proposes to carry on investigations. He must also indicate the institution or institutions, or in default the circumstances or conditions under which he proposes to work.

4. All applications must be submitted, through the head of the institution in which the candidate was last a student, so as to reach the undersigned on or before the 15th February 1913.

5. Application forms may be had from the Personal Assistant, office of the Director of Public Instruction, Writers' Buildings, Calcutta.

State Sanskrit Scholarships, 1913.

NOTIFICATION.

In accordance with the directions contained in paragraph 3 of the Government of India, Home Department Resolution Nos. 731-743, dated the 1st September 1908, which is republished below, two scholarships for the scientific study of Sanskrit in Europe will be awarded in the year 1913. The application of any candidates from Bengal should be submitted with the required particulars to the undersigned not later than the 26th of February 1913. No candidate will be considered who is not possessed of high qualifications and who is not a native of Bengal.

Application forms may be had from the Personal Assistant to the Director of Public Instruction, Bengal.

G. W. KÜCHLER,

Director of Public Instruction, Bengal.

CALCUTTA, *the 7th January 1913.*

Nos. 731-743, dated Simla, the 1st September 1908.

RESOLUTION—By the Government of India, Home Department.

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India. They believe that great advantage will result from aiding students to acquire the critical and scientific methods of western scholarship, by studying the classics under European professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists.

2. They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe—three for the study of Sanskrit and one for the study of Arabic. Not more than two will be awarded annually. The scholarships will be open to well-qualified students with a genuine taste for oriental studies and to gentlemen employed as professors of Sanskrit and Arabic in India. The value of each scholarship will be £150 a year, and it will be tenable for two years. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England. A scholarship-holder will be provided with a free second-class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period. He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

3. In the first year one scholarship will be awarded for Sanskrit and one for Arabic. In the following year two scholarships for Sanskrit only will be awarded. Each Local Government or Administration is invited to submit, during the current financial year, the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternative years. It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon. The power of selection will rest with the Government of India, who will award the scholarships to those whom they may consider best fitted to hold them. Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 31st March of each year at latest. Those for the current year should be sent in as soon as possible.

ORDER.—Ordered that a copy of this Resolution be communicated to the Government of Bengal for information and guidance.

BY ORDER OF THE HON'BLE THE PRESIDENT AND THE MEMBERS OF THE BOARD OF SANSKRIT EXAMINATIONS.

IT is hereby notified that a centre for holding the Sanskrit First and Second Examinations, under the auspices of the Sanskrit Vidyotshahini Sabha at Brahmanberia, in the district of Tippera, has been sanctioned by the Board of Sanskrit Examinations from the year 1913.

The royalties payable are at 7 annas, 5 annas, 3½ annas and 9 annas per ton of steam, rubble and dust coals and hard coke, respectively.

The value estimated by the Court is Rs. 7,500.

Lot No. 2.—The entire leasehold coal-mining rights for 999 years granted by a patta, dated 24th January 1908, by Balo Davananda Mohanta Thakur to Mukunda Lal Laik in respect of an undivided two annas share in rent-free debuttur, mauza Monoharbahal, situation as given in lot No. 1 above. The royalties payable are at 7 annas, 5 annas and 3½ annas per ton of steam, rubble and dust coals, respectively, and at 9 annas per ton of hard and soft cokes, respectively. The value estimated by the Court is Rs. 3,750.

Lot No. 3.—The entire mokrori leasehold coal-mining rights granted by a patta, dated 10th Jaisto 1308 B. S., by Gourgunanando Mohanta Thakur, Radhanando Mohanta Thakur, Bidyabinode, Sakalanando Mohanta Thakur and Gokulanando Mohanta Thakur to Cooverjee Bhoja in respect of an undivided eight annas share in rent-free debuttur mauza Monoharbahal, situation as given in lot No. 1 above. The royalties payable are at 1 pice and ½ pice per maund of steam and rubble coals, respectively ; at 1½ pice per maund of hard and soft cokes, respectively ; and 2 annas per ton of dust coal. The value estimated by the Court is Rs. 75,000.

Lot No. 4.—The entire leasehold coal-mining rights for 999 years granted by a patta, dated 5th September 1908, by minors Srishanando Mohanta Thakur and Hari Gunanando Mohanta Thakur acting through their certificated guardian Sreemuty Rasamonjori Debi to Sasti Kinkar Banerjee in respect of an undivided one anna share in mauza Monoharbahal, described in lot No. 1 above. The royalties payable are at 3 pies and 1½ pies per maund of steam and rubble coals, respectively ; at 4½ pies per maund of hard and soft cokes, respectively ; and 2 annas per ton of dust coal. The value estimated by the Court is Rs 1,250.

Lot No. 5.—(*Ka*). The entire leasehold coal-mining rights granted by Indenture, dated 10th August 1908, by the then Receiver of the Searsole estate and the owners thereof, Kumar Rameswar Malia and Sreemutty Ranee Bhava Sundari Dabee to Mukunda Lal Laik in respect of 230 bighas of mauza Morichkota, situate in thana and sub-registry Asansole, district Burdwan, the whole mauza being bounded on the north by mauza Utwara, east by mauzas Ungaria, Gopalpur and Kathgandboree, south by mauza Raghunathsah and west by mauza Sidhee, or however otherwise, 230 bighas out of this mauza on the south defined in a map annexed to indenture.

(*Kha*). The entire money due from Kumar Rameswar Malia and Sreemutty Ranee Bhava Sundari Dabee due on an Indenture of mortgage, dated 10th August 1908, executed by them in favour of Mukunda Lal Laik for one lakh of rupees with interest (being 7 per cent. per annum) thereon, a portion of the interest is to be set off against minimum royalties due for 5 annas share of Monoharbahal (lot No. 1) and 230 bighas of Morichkota (lot No. 5 *ka*).

5 (*Ka*) and 5 (*Kha*) form one lot and the value thereof estimated by the Court is Rs. 1,10,000.

Lot No. 6.—The moiety share in the mortgage bond, dated 27th Assar 1304 B.S., executed by Jugut Narayan Singha, hypothecating one moiety share in tauzis Nos. 22 and 24 of the Pabdra estate in district Manbhum with the exception of ten mauzas specified therein, in favour of Ambica Charan Laik for Rs. 80,000 with interest.

The estate came under Act VI of 1876, and the Manager of the Encumbered Estate passed a decree on the 22nd September 1905 in claim case No 16 brought on that bond by Mukunda Lal Laik, Kali Dass Laik, Raghunath Laik, Durga Dass Laik and Abinash Chandra Laik for Rs. 1,20,290. Half of this amount with interest (being 6 per cent. per annum) accruing thereupon since the decree will be sold. The value estimated by the Court of the moiety share of the decree is Rs. 50,000.

Lot No. 7 (Ka). 8 annas 9 gandas 2 krantis share of the mokrori leasehold coal-mining rights for 991 years granted by a patta, dated 14th Jaisti 1309 B. The annual mokrari rent payable for the 16 annas of the above leasehold rights is Rs. 1,942. The coal mining rights of the entire mauza have been sublet at an annual rent of Rs. 3,884 by a patta, dated 29th April 1904, to the Bengal Iron and Steel Company, Limited.

(Kha). The mokrori rights of the judgment debtors in the surface of mauza Jitpur, described in the above paragraph. The annual mokrari rent payable to the Raja of Jharia for the surface rights of the entire mauza is Rs. 16.

7 (*Ka*) and 7 (*Kha*, form one lot, and the value estimated by the Court is Rs. 7,100.

Lot No. 8.—6 annas 1 gunda 2 karas 2 krantis share of the coal-mining rights for 991 years granted by Raja Durga Prasad Singha, of Jharia, to Rameswar Chakravarty and Hara Dayal Singha in respect of mauza Nouirdihi, situate in pargana and thana Jharia, in sub-registry Dhanbaid, district Manbhum, bearing No. 679 in the revenue map measuring about 566 bighas. The entire mauza has been sublet by an Indenture, dated 4th June 1902, to the Bengal Iron and Steel Company, Limited, at an annual mokrori rent of Rs. 10,065. The yearly profit of 6 annas 1 ganda 2 karas 2 krantis share is Rs. 1,901-0-8. The value estimated by the Court is Rs. 16,000.

Lot No. 9.—The moiety share of judgment-debtor Krishna Kishore Adhikary in the mokrori and mourasi leasehold coal-mining rights granted by a mokrori mourasi patta, dated 8th Choitro 1306 B. S., by Raja Durga Prashad Singha, of Jharia, to Krishna Kishore Adhikary and Jadab Lal Banerjee in respect of 115 bighas of mauza Kantapahari, situate in pargana Jharia, in sub-registry and sub-district Dhanbaid, in District and Collectorate Manbhum, the said 115 bighas, as per plan annexed to patta, bounded on the north by part of mauza Kantapahari, east by mauza Mudidih, south by mauza Angarpathra, and west by the land leased out to Bhubaneswar Trigunait and part of mauza Kantapahari, the 42 bighas and the 30 bighas leased out to Prosunno Kumar Roy and Kulada Prashad Deoghoria, respectively, being included within this boundary. Annual rent payable for the said moiety share is Rs. 474-6. It has been sublet by a patta, dated 14th Agrahayan 1307 B S., to Jadab Lal Banerjee, and the royalties payable by the sub-lessee being 2 annas per ton of all classes of coal excepting dust-coal and slack.

The value estimated by the Court is Rs. 2,000.

Lot No. 10.—6 annas 3 gundas 1 kara 1 krauti share in the mokrori mourasi coal mining rights of the 115 bighas of land of mauza Kantapahari, described in lot No. 9 above, one-half share in the said 115 bighas being held under a lease, dated 8th Choitro 1306 B. S., from the Raja of Jharia and the other half held under a sub-lease, dated 14th Agrahayan 1307 B. S., from Krishna Kishore Adhikary, and the annual rent payable to the former is Rs. 474-6, and the royalties payable to the latter have already been stated in lot No. 9 above. The said 115 bighas have been sublet to Kesubjee Lalajee, and the royalties payable by him are 2 annas 6 pies per ton of all classes of coal except dust coal, namely, hard coke, etc., and 1 anna per ton of dust-coal.

The value estimated by the Court is Rs 500.

Lot No. 11.—7 annas 6 gandas 2 karas 2 krantis share in the mokrori mourasi leasehold coal-mining rights granted by a mokrori patta, dated 2nd Pous 1301 B. S, by the late Raja Joymongal Singha, of Jharia, to Raj Kumar Banerjee in respect of 450 bighas of mauza Huriladih, bearing No. 682 in the revenue map, and situate in pargana and thana Jharia, in sub-registry and subdivision Dhanbaid, in district, registry and Collectorate Purulia, in zilla Manbhum. The said 450 bighas are bounded on the east by part of mauza Huriladih, north by Jharia khas as per *thak*, west by the portion of mauza Huriladih, leased out in mokrori to Babu Prosunno Kumar Dey, doctor of Purulia, and south by mauza Jamuadova as per *thak*. The annual rent payable for the said 450 bighas is Rs. 900, and all this land has been sublet. The royalties payable by the sublessees are 3 annas per ton of all classes of coal except dust-coal.

The value estimated by the Court is Rs. 4,000.

Lot No. 12.—10 annas 14 gundas 2 krantis share in the *dur-mokrori dur mourasi* rights, both of surface and underground, granted by a patta, dated 6th May 1902, by Satcowri Dhur to Jadab Lal Banerjee and Mukunda Lal Laik in respect of mauza Joyrampur, situate in pargana and thana Jharia, in sub-registry and chauki Dhanbaid, in district Manbhum, as delineated on the revenue and thakbust maps. The annual *dur-mokrori* rent payable for the entire mauza is Rs. 4,609. The coal-mining rights of 735 bighas 6 cottahs of this mauza have been sublet to different parties on royalties at 3 annas per ton of all classes of coal except dust and at 1 anna per ton of dust-coal, and the annual minimum royalties payable by the sublessees amount to Rs. 5,882-6-8; and coal-mining and surface rights of 27 bighas have been sublet in *dur-mourasi mokrori* at an annual rent of Rs. 648. The value estimated by the Court is Rs. 2,000.

Further particulars relating to all the above 12 lots will be found in the Bengali Notification of Sale issued by the Court and in the Execution record.

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901 (VI OF 1901), FOR THE YEAR ENDING THE 30TH JUNE 1912.

GENERAL DEPARTMENT.

EMIGRATION.

CALCUTTA, THE 13TH JANUARY 1913.

RESOLUTION—No. 276.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1912, submitted by the Superintendents of Emigration, Calcutta, and the districts of the Province of Bihar and Orissa.

The remarks of Commissioners of Divisions in the Province of Bihar and Orissa on the reports submitted by the Superintendents of Emigration in their respective divisions.

As the reports under review relate to the year ending the 30th June 1912, this Resolution deals not only with areas situated in the new Presidency

of Bengal, but also with areas which have since been transferred to the province of Bihar and Orissa in consequence of the territorial rearrangements which took place on the 1st April 1912. During the year certain important administrative changes were introduced in connection with the work'ng of Act VI of 1901. As a measure of decentralization, all officers in charge of districts were appointed to be Superintendents of Emigration for their districts, with effect from 1st January 1912, while the jurisdiction of the Protector of Emigrants as Superintendent of Inland Emigration, which had hitherto included the whole of the old province of Bengal (excepting the Chota Nagpur Division and the districts of the Sonthal Parganas and Sambalpur), was limited to the town of Calcutta, the districts of Hooghly and Howrah and the Presidency Division. The power to issue licenses under the Act to contractors and others, which District Officers and Superintendents of Emigration were thus authorized to exercise, is calculated to make for efficiency, as, from their local knowledge, they are in a better position than the Protector of Emigrants to judge of the suitability or otherwise of the applicants. Another administrative measure of considerable importance was the declaration that Cuttack should be the place where depôts for the reception of contractors' labourers recruited in Orissa should be established, and where the labour contracts of such emigrants should be executed. Under the practice previously in force labourers had to be sent to Calcutta for these purposes. The Inland Emigration Manual was revised and brought up to date, and it now embodies provisions which give effect to some of the recommendations of the Assam Labour Enquiry Committee of 1906, particularly those regarding the licensing of contractors and recruiters. The rules have also been recast so as to afford the officers who have to administer them a more convenient guide in the performance of their duties.

2. During the year under report the attention of Government was drawn to the malpractices of a class of unlicensed persons who smuggled labourers from Chota Nagpur, and made them over to licensed contractors working in the adjoining districts of Midnapore and Burdwan. The depôts at Asansol where this illegal recruiting was most prevalent were closed by order of the Superintendent of Emigration, and Government again drew the attention of the local officers to the necessity for thorough inquiry where there was reason to suspect that any improper procedure had been adopted in connection with the recruitment of an emigrant presented for registration. It was pointed out that it was their duty, when any suspected case of illicit recruitment was brought to their notice, to communicate at once with the authorities in the other districts concerned so that prompt and concerted action might be taken in the detection and prevention of abuses. Suitable steps were also taken to prevent the issue of licenses by District Magistrates to persons whose applications had previously been rejected by the Protector of Emigrants. It is gratifying to note that the relaxation of the provisions of Chapter IV of the Act in favour of certain associations of employers and the consequent freedom from control enjoyed by the local agents of such associations were on the whole attended by satisfactory results. Some cases of malpractice in connection with sardari recruitment came to light during the year. Enquiries showed that even under this system of recruitment it was still possible for a former contractor whose license had been cancelled to supply labourers through his old recruiters to the sardars accredited to a local agent. Several instances of false description of emigrants by garden sardars were also reported. It is incumbent on local agents to have nothing to do with the engaging of labour otherwise than by genuine recruitment, and His Excellency in Council desires to impress on them the importance of their duty in carefully supervising the work of their sardars so as to prevent the use of any improper or undesirable intermediary in the recruitment of their labour force.

3. The number of emigrants of all classes recruited in Madras, the United Provinces, the Central Provinces, Bengal, Bihar and Orissa, and adjoining Native States who embarked at Goalundo during the year was 53,577, as compared with 37,675 in the preceding year. Of this number, 4,319 were recruited by licensed contractors and 44,479 by garden-sardars of all classes, as against 7,226 and 26,727 respectively in the year 1910-11.

The number engaged by special sardars under section 90 was 43, or 14 less than the number recruited in the preceding year. A disquieting feature of the year's working of the Act was the excess of females over males among the emigrants recruited from the Native States. The number of such emigrants rose from 3,722 in 1910-11 to 4,789 in 1911-12, the corresponding figures for 1909-10 being 1,276. This gradual increase in the number of recruits from the Native States is a matter of deep concern, since recruitment must have taken place in defiance of the prohibitions which the Chiefs are known to place upon emigration from their States. In some cases inhabitants of these States and, in other cases, natives of British districts in the guise of Native State subjects are recruited and despatched to Assam as free or non-Act labourers. In its Resolution on the Emigration Report for 1909-10 Government expressed the opinion that illegalities connected with recruitment from Native States would steadily diminish, but it seems clear that this expectation has not been fulfilled. Much good would result if registering officers took pains to satisfy themselves that the emigrants brought before them had been lawfully recruited within their respective jurisdictions. This aspect of recruitment demands and will receive the serious attention of Government, and steps will be taken to put a stop to such abuses as investigation may bring to light. There was an increase in the number of emigrants recruited under Chapter IV of the Act, but the increase was particularly marked in the case of unindentured emigrants recruited by garden-sardars working under approved associations, whose number rose from 23,621 in the year 1910-11 to 40,666 in the present year. The figures tend to show that the contractors system is falling into disfavour, and that employers are gradually realizing that their interests are best served by a free system of labour. His Excellency in Council is not without hopes that the gradual extension of the sardari system will result in the entire abolition of recruitment by contractors.

4. The total number of emigrants registered under Chapters III and IV of the Act in Bengal and Bihar and Orissa, including Chota Nagpur, was 2,851 and 2,377 respectively, compared with 6,440 and 2,045 respectively in the year 1910-11. Of these, 226 emigrants recruited by licensed recruiters and 1,039 emigrants engaged by garden-sardars were forwarded to the labour districts without being placed on contract, as against 911 and 793 respectively in the preceding year. Forty-three emigrants as against 57 in the year 1910-11 were recruited by garden-sardars holding special permits under section 90, while 19,934 unindentured emigrants were engaged by garden sardars working under the control of approved associations, as against 11,798 in the year 1910-11. The increase in the number of emigrants of the latter class is due to the large number of sardars sent down from Assam. The keenness of the competition to secure labourers is evidenced by the fact that the 7,000 sardars who visited the Chota Nagpur Division succeeded in recruiting no more than 10,000 persons including dependents. The decrease in the number of emigrants recruited by specially employed garden-sardars shows that this particular system still continues to be in disfavour.

5. The number of licenses issued to contractors, sub-contractors, and recruiters fell from 24, 4 and 277 in the preceding year to 18, 1 and 220 respectively during the year under review. The licenses of 9 contractors and 84 recruiters were cancelled for irregularities and misconduct. The total number of garden sardars employed in Bengal, Bihar and Orissa was 12,795, or 3,149 more than in the year 1910-11. Of these, 862 worked under the ordinary procedure of Chapter IV and 51 held special permits under section 91, while 11,882 worked under the control of recognized associations. As in the previous year, the work of the local agents of these associations is reported to have been generally satisfactory.

6. The report shows that depôts, places of accommodation and rest-houses for emigrants were properly inspected and maintained in good sanitary condition throughout the year. No outbreak of epidemic disease was reported. There were no casualties of any kind among the 4,335 labourers despatched by licensed contractors who travelled to Goalundo, and only one out of the 4,319 emigrants who embarked for Assam, Cachar and Sylhet died on the

voyage. Out of a total of 14,506 emigrants recruited by sardars only 6 died on the way to Goalundo and there were only 9 casualties among 44,469 emigrants who travelled to Assam by steamers. These figures reflect great credit on the recruiting agencies and on the railway and steamer companies for the excellence of their arrangements for transport. His Excellency in Council is pleased to notice that prior to the arrival of the coolies in the depôts and places of accommodation there were only 31 desertions as compared with 86 in 1910-11, and it is still more gratifying to note that the number of desertions from the depôts fell from 219 in the previous year to 38 in 1911-12, a decrease in the percentage from 3·84 per cent. to 1·91 per cent. Another very satisfactory feature of the year's working of the Act is the fact that of the 50,465 emigrants and dependents who were medically examined at Asansol, Calcutta and Goalundo, not a single person was detained for treatment or rejected as unfit and returned to his home.

7. The number of criminal cases in connection with recruitment rose from 95 to 133, though the number of persons convicted was only 68 as against 64 in the year 1910-11. The marked increase in the number of prosecutions instituted in the district of Manbhum is attributed to the vigilance of the local authorities in the detection of illegal recruitment. It is only by means of energetic action that progress can be made in the prevention of abuses, and it is gratifying to notice that the strict measures adopted in the previous year in the Sonthal Parganas led to a reduction in the number of cases of illegal recruitment from 19 to 6.

8. There was an increase both in receipts and in expenditure incurred during the year in connection with the transport of labour to Assam, the figures being Rs. 14,420 and Rs. 35,317, respectively, as against Rs. 14,353 and Rs. 28,228 in the year 1910-11.

9. Dr. W. C. Hossack acted for Dr. Banks from the beginning of the year until the 1st October 1911. The thanks of His Excellency in Council are due to these two officers and to the local authorities for their efficient control and careful administration of the Act.

By order of the Governor in Council,

J. H. KERR,

Secretary to the Govt. of Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1912.

I. *Character of the season.*—There was no rain during the month under review except very light showers in Jalpaiguri and Darjeeling. The usual rainfall statement is appended.

II. *Progress of Agricultural operations.*—Sowings of *rabi* crops were nearly completed. The harvesting of winter rice, winter *til*, cotton and sugarcane continued during the month.

III. *State of standing crops.*—The condition of standing crops was reported to be fairly good.

IV. *Prospects and probable outturn of crops.*—The prospects of the various kinds of *rabi* crops were reported to be good.

V. *Damage to crops.*—Very slight damage by insect-pests to potatoes and other *rabi* crops was reported from parts of Rangpur and Bakarganj during the latter part of the month.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was on the whole good. Cattle-disease was, however, reported to be prevalent in parts of the districts of Murshidabad, Khulna, Burdwan, Midnapore, Hooghly, Howrah, Pabna, Mymensingh and Noakhali.

VII. *Failure of pasturage and fodder.*—The supply of fodder and water was sufficient in all the districts of the Province except in parts of Burdwan, where scarcity of water was reported to be felt in parts of the Asansol subdivision during the month.

VIII. During the second fortnight of the month under review the price of common rice rose in five districts, fell in nine and remained stationary in the rest. It varied from 7 seers a rupee in the Chittagong Hill Tracts to $11\frac{7}{16}$ seers a rupee in Dinajpur.

IX. *Condition of agricultural people.*—The condition of the agricultural population continued to be good.

J. R. BLACKWOOD, *Director of Agriculture, Bengal.*

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

24-Parganas.

No. 132M.—The 17th January 1913.—In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and upon the application of the Commissioners of the South Suburban Municipality, in the district of 24-Parganas, made in pursuance of a resolution passed at a meeting specially convened to consider the question, His Excellency the Governor in Council is pleased to extend all the provisions of Part IX of that Act to the area of the South Suburban Municipality, the boundaries of which are specified below:—

1,000 feet on both sides of the Harisova Jingirpole Road and Budge-Budge Road in Behala Ward of the Municipality.

Burdwan.

No. 139M.—The 18th January 1913.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), His Excellency the Governor in Council is pleased to approve the resolution passed by the Commissioners of the Raniganj Municipality, in the district of Burdwan, under section 23 of that Act, electing Mr. A. C. Hills to be Chairman of that Municipality.

Midnapore.

No. 164M.—The 17th January 1913.—The following draft of rules which has been framed by the Commissioners of the Midnapore Municipality under section 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and which the Governor in Council proposes to sanction under clause (2) of that section, is published for the information of persons likely to be affected thereby.

2. The draft rules will be taken into consideration on the 1st March 1913, and any objection or suggestion received by the undersigned through the Magistrate before that date will be duly considered.

Draft Rules framed by the Commissioners of the Midnapore Municipality under section 241 of Bengal Act III of 1884.

The following rules apply to houses, not being huts:—

Drains.

1. Any house erected or re-erected after these rules come into force shall be provided with drains sufficient for its effective drainage, to the satisfaction of the Chairman.

2. The owner or occupier of any premises shall, provided that he first obtains the written permission of the Chairman and that he complies with the conditions prescribed by these rules, be entitled to connect his house-drain with the nearest Municipal drain.

3. The Chairman may, for sanitary purposes, require the owner or occupier of a house to provide for the separate drainage therefrom of foul or polluted water from privies and urinals.

4. No house-drain shall be so constructed as to pass beneath any floor or part of a building or within 10 feet of any well or tank the water of which is used for bathing or drinking purposes.

5. Every house-drain must be open and at least eight inches in breadth, must be laid upon a bed of good concrete and constructed with cut stone or brick masonry well plastered and protected with cement, and must have a proper fall.

6. Every house-drain must be laid in a straight line as far as possible. The bends, if any, should not be at right angles but in easy curves.

7. The mouth of every house-drain shall be at least 18 inches higher than the top of the nearest Municipal drain.

The gradient of no house-drain shall be less than 1 in 30.

8. The level of the ground-floor of every house shall be at least three feet higher than the top of the nearest Municipal dra n :

Provided that, where the Municipal drain is more than 100 feet from the house, the ground-floor level shall be at least two feet higher than the level of the surrounding land.

Privies.

9. No privy shall be erected in the space required by these rules to be left at the back of a house—

(*a*) unless the total height of the privy does not exceed ten feet, and
(*b*) unless there is a space of at least four feet between the nearest wall of the house and the service aperture of the privy.

10. No privy situated in, or adjacent to, a house shall be placed at a distance of less than—

(*a*) six feet from any other building which is a public building, or

(*b*) four feet from any other building which is, or is likely to be, used as a dwelling place or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

11. No privy shall be erected at a distance of less than 25 feet from any tank, or 12 feet from any well, the water of which is used for bathing or drinking purposes: provided that in any individual case of hardship the prescribed distance may be shortened by the Commissioners at a meeting.

12. (1) A drain shall be provided for every privy.

(2) Such drain shall be constructed of some impervious material, and must connect the floor of privy—

(*a*) with a drain communicating with a Municipal drain or sewer, or

(*b*) if permitted by the Chairman, with an impervious cesspool, the contents of which can be removed either by hand or by flow, after filtration.

13. (1) The floor of every privy—

(a) shall, if the Chairman in any case so direct, be made of one of the following materials to be selected by the owner of the privy, that is to say glazed tiles, artificial stone, or cement, or

(b) if no such direction is given, shall be made of thoroughly well-burnt earthen tiles or bricks plastered, and not merely pointed, with cement, and

(c) must be in every part at a height of at least six inches above the level of the ground adjoining the privy.

(2) The floor of every privy shall have a fall or inclination of at least half an inch to the foot towards the drain prescribed by rule 12, and the platform of the privy shall have a similar fall towards the aperture.

14. The walls and the roof (if any) of every privy shall be made of such materials as may be approved by the Chairman:

Provided that the entire surface of the walls below the platform shall either be covered with cement or be made in the manner prescribed for the making of the floor in clause (a) or clause (b) of rule 13.

15. The platform of every privy shall either be plastered with cement or made in the manner prescribed for the making of the floor in clause (a) or clause (b) of rule 13.

16. Every privy situated in, or adjacent to, a house shall have an opening, at least three square feet in area, in one of the walls of the privy, as near the top of the wall as may be practicable and communicating directly with the open air.

17. Every privy shall be constructed in accordance with the following provisions:—

(a) the space beneath the platform of the privy must be of such dimensions as to admit of at least one moveable receptacle for sewage, of a capacity not exceeding one cubic foot, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptacle, of any sewage falling or thrown through the aperture of the platform:

(b) the privy shall be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein and removing therefrom a proper receptable for sewage;

(c) the said receptacle must be watertight, and must be made of metal if its capacity is over half a cubic foot, or of well-tarred earthenware or glazed stoneware if its capacity is less than half a cubic foot; and

(d) the door of the opening for the insertion and removal of such receptacle must be so as to completely cover the opening.

Space in front of or about houses.

18. Every house, erected or re-erected after these rules come into force, shall have a clear space of at least four feet in front for free passage way:

Provided that when such house is on the side of a road or pathway, a clear space of at least three feet must be left between the drain (if any) of such road or pathway and the front of the house.

N.B.—"Front" means the outside of the boundary wall, plinth, verandah, pillars or posts.

19. Every dwelling-house, erected or re-erected after these rules come into force, shall have an open space at least three feet wide along the rear and the sides of the house.

20. The open space between any two adjoining dwelling-houses shall be at least six feet wide.

21. All powers of the Chairman under these rules can be delegated by him to the Vice-Chairman.

No. 172M.—The 20th January 1913.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), His Excellency the Governor in Council is pleased to approve the resolution passed by the Commissioners of the Noakhali Municipality, in the district of Noakhali, under section 23 of that Act, electing Khan Bahadur Maulvi Bazlar Rahim to be Chairman of that Municipality.

NOTIFICATION.

Post-Graduate Research Scholarship, 1913.

1. Two post-graduate Research Scholarships of the monthly value of Rs. 100 each, and tenable for a maximum period of three years, but in the first instance for one year only, will be awarded early in the year 1913.

2. No candidate will be considered who has not passed the M.A., the M.Sc., the M.D., the D.L., or the Master in Engineering Examination of the Calcutta University in 1910, 1911 or 1912. No candidate will be considered who is not possessed of high qualifications, and who cannot show that he has a capacity for original research or who is not a *bona-fide* native of West Bengal.

3. One of the scholarships will be awarded to a candidate who proposes to carry on original research in some scientific subject, such as Natural and Physical Science, Chemistry, Mathematical Science, etc. The other may be awarded to a candidate who undertakes research in some literary subject, such as Language, Comparative Philology, [illegible]graphy, Epigraphy, Philosophy, History, Archaeology, Anthropology, etc.; but no application for a scholarship for research in a literary subject will be considered unless a candidate presents himself who not only shows that he has the capacity for undertaking the research proposed, but also makes it clear, by the programme which he submits, that he has thought out a definite course of enquiry. In the event of no suitable candidate for a literary research scholarship being forthcoming, both the scholarships may be awarded for scientific research and *vice versâ*. Each candidate for a scholarship must state as definitely as possible the subject or branch of a subject in which he proposes to carry on investigations. He must also indicate the institution or institutions, or in default the circumstances or conditions under which he proposes to work.

4. All applications must be submitted, through the head of the institution in which the candidate was last a student, so as to reach the undersigned on or before the 15th February 1913.

5. Application forms may be had from the Personal Assistant, office of the Director of Public Instruction, Writers' Buildings, Calcutta.

G. W. KÜCHLER,

Director of Public Instruction, Bengal.

State Sanskrit Scholarships, 1913.

NOTIFICATION.

IN accordance with the directions contained in paragraph 3 of the Government of India, Home Department Resolution Nos. 731-743, dated the 1st September 1908, which is republished below, two scholarships for the scientific study of Sanskrit in Europe will be awarded in the year 1913. The application of any candidates from Bengal should be submitted with the required particulars to the undersigned not later than the 26th of February 1913. No candidate will be considered who is not possessed of high qualifications and who is not a native of Bengal.

Application forms may be had from the Personal Assistant to the Director of Public Instruction, Bengal.

G. W. KÜCHLER,

Director of Public Instruction, Bengal.

CALCUTTA, *the 7th January 1913.*

Nos. 731-743, dated Simla, the 1st September 1908.

RESOLUTION—By the Government of India. Home Department.

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India. They believe that great advantage will result from aiding students to acquire the critical and scientific methods of western scholarship, by studying the classics under European professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists.

2. They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe—three for the study of Sanskrit and one for the study of Arabic. Not more than two will be awarded annually. The scholarships will be open to well-qualified students with a genuine taste for oriental studies and to gentlemen employed as professors of Sanskrit and Arabic in India. The value of each scholarship will be £150 a year, and it will be tenable for two years. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England. A scholarship-holder will be provided with a free second-class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period. He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

3. In the first year one scholarship will be awarded for Sanskrit and one for Arabic. In the following year two scholarships for Sanskrit only will be awarded. Each Local Government or Administration is invited to submit, during the current financial year, the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternative years. It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon. The power of selection will rest with the Government of India, who will award the scholarships to those whom they may consider best fitted to hold them. Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 31st March of each year at latest. Those for the current year should be sent in as soon as possible.

ORDER.—Ordered that a copy of this Resolution be communicated to the Government of Bengal for information and guidance.
